2004-05	70	28	1	100
2005-06	64	35	2	100
2006-07	68	30	2	100
2007-08	73	27	0	100

Note: Since it takes about four years, on average, to earn a certificate, the gender distribution of certificate recipients is compared to enrollment four years prior. Matriculated enrollment is that of students intending to complete a program of study; Fall enrollment is unduplicated at the District level and is not the sum of the college matriculated enrollments.

Sources: Enrollment: Bruce Hawkins' DBF Degree files from PCCD datamart.

Note: Native American numbers are too small to provide meaningful success rates.

Definitions:

1. Cohorts are defined as students taking the initial course in the Fall term of the specified cohort year.
2. Counts are unduplicated; students may have attempted and/or succeeded in a course more than once; multiple attempts and multiple successes at each level are counted only once.
3. Cohorts are followed for 11 terms (including summers) after the initial term, i.e., for a four-year period. For example, the Fall 2004 cohort is followed from Fall 2004 through Summer 2008.
4. Students are tracked for courses after the initial level at all four colleges.
