Cut-off Scores
Writing (02) & Reading (01) Subtests

How to use this chart

Find the WRITING score range first. Then move directly right to the READING score column. If the READING score is within or higher than that range, then read the course recommendation on that row--do not go up. Otherwise, search DOWN the READING column until a READING score match is found. Read the appropriate course recommendation to the right.

Writing Score (02) (Grammar & Mechanics)	Reading Score (01) (Comprehension & Vocabulary)	Recommended Course
