Follow these easy steps to enroll at BERKELEY CITY COLLEGE!

1. Apply for Admission. Apply online or at the Admissions Office on the first floor. For personal attention, ask a Student Ambassador at the Welcome Center nearby.

2. Complete Assessment and Orientation. Most students take an Assessment for Math and English (or ESL) before enrollment in those subjects.

3. See a Counselor. This is your opportunity to get help planning your educational program and goals.

4. Enroll in your Classes. Enroll online through PASSPORT, or enroll in person at the Admissions Office. Be sure to use your new Peralta Student Email Account.

5. Pay your Fees. You have three places to do this: online through PASSPORT, at the Cashier’s Office, or the Financial Aid Office.

6. Get your Photo ID. This will identify you as an official BCC student!

For questions, contact the Admissions Office at (510) 981-2805.
what your needs are. With our help, the sky's the limit!

College, we specialize in transforming lives, no matter your skills as stepping stones to success. At Berkeley City College? BCC offers a gateway program to give you basic learning degree program offered conveniently in the...
The heart of the culturally vibrant city of Berkeley, you have the chance to make life-changing connections every single day, both within and outside the walls of the college. Connect with teachers in the classroom or tutors in the Learning Resources Center. Link up with future leaders in student government or the welcome team of student ambassadors. Join peers in student clubs and other exciting activities. Beyond the classroom, the college has many bridges into the community. BCC students can take classes at UC Berkeley. Berkeley High students can get credit for BCC classes. And Bay Area organizations offer students internships in a variety of career fields, from healthcare facilities to major film studios to biotech firms.

Throughout 40 years, Berkeley City College has graduated thousands of students, many of whom have stayed in the Bay Area to continue their education or thrive in their careers and give back to the community. Highlighted below are three of BCC’s success stories, former students who have each come from different backgrounds but found the education and skills they need to shine brightly in the world and make BCC proud!

Paige Bierma
Occupation: Multimedia Arts, 2010
BCC:

When traveling the world as a newspaper reporter writing about world news, I was always searching for a way to fulfill my love for storytelling. What I love most about BCC’s multimedia department is the freedom and creative challenge I was given to explore my storytelling. What I love most about BCC’s multimedia department is the freedom and creative challenge I was given to explore my storytelling. What I love most about BCC’s multimedia department is the freedom and creative challenge I was given to explore my storytelling.

“When I first approached BCC, I was filled with doubt. Because of family struggles, I had to quit school at an early age, and now I was being given the opportunity to get the education I always wanted. I was terrified of failing. But my worst fears were proven wrong as faculty and staff provided additional support, and fellow students were kind and accepting. The experience gave me the confidence to persevere. I became part of a community that inspired me to expect more, reach my goals beyond my wildest expectations, and I found friends for life. “

Kristopher Green
Occupation: Psychology, 2012
University of California, Berkeley:

GPA 3.95
AA for Transfer, Psychology, 2013
BCC:

**Ben Parcher**

BCC: Biology, 2011

Recent Professional Experience:

- Current: Research Intern, Ben Parcher, 2015
- Future: Doctoral Candidate, Biological Sciences, 2016

When looking for a place to earn my prerequisites for pharmacy school, I was thrilled to discover BCC’s outstanding biotechnology program. But I ended up finding much more. During the process, I received an outstanding education relating to my field of regenerative medicine and a dream internship where I could actively participate in stem cell research. Not only did I meet a pharmacy student at UCSF and work in the field, but I also work in a world-class health company pursuing my goal to work in managing health care access. BCC definitely opened doors for me that changed my life.

**Kristophe Green**
