Peralta Community College District

INVITATION FOR BID

Bid No.: 11-12/23 District Wide Access Control and Alarm Monitoring System

The Peralta Community College District, Oakland, California, through the Office of Purchasing Department, is hereby requesting sealed bids for the above mentioned work.

The successful bidder (Contractor) will be required to furnish all labor, material, equipment, and supplies to complete the work. The Contractor must also pay all applicable taxes and provide required insurance, permits and bonding.

## Full Opportunity

The Peralta Community College District hereby affirmatively ensures that Disadvantaged Business Enterprises (DBE), Small Local Business Enterprise (SLBE) and Small Emerging Local Business Enterprise (SELBE) shall be afforded full opportunity to submit bids in response to this notice and will not be discriminated against on the basis of race, color, national origin, ancestry, disability, gender, transgender status, political affiliation or religion in any consideration leading to the award of contract.

No qualified disabled person shall, on the basis of disability, be excluded from participating in, be denied the benefits of, or otherwise be subjected to discrimination in any consideration leading to the award.

Peralta Community College District reserves the right to reject any or all bids, to waive any irregularities or informalities not affected by law, to evaluate the bids submitted and to award the contract according to the proposal which best serves the interests of Peralta Community College District.

David Imada, Director of Purchasing and Contracts

INSTRUCTIONS TO Bidders

Bid Proposals:
No bid proposals shall receive consideration by the Peralta Community College District (hereinafter "District") unless made in accordance with the following instructions:

1. Deadline For Receipt of Proposals. Bid proposals must be sealed and filed at the office of the Director of Purchasing located at 501 5th Avenue, Oakland, California, 94606 no later than the time specified in the invitation. The District suggests that bids be hand delivered in order to ensure their timely receipt. Any bids received after the time stated shall not be opened and shall be returned, sealed, to the bidder.

2. Bidders Conference. A mandatory bidders conference will be held on the date specified in the invitation, for the purpose of acquainting all prospective bidders with the bid documents. It is imperative that all prospective bidders attend this conference. Failure to attend the conference may disqualify a non-attending bidder from the bid. Following this meeting, a mandatory site review will be conducted to acquaint bidders with the project.

3. Requests for Information. Any questions relative to the bid should be in writing and directed to the Architect or his or her designee at the address specified for receipt of bid proposals.

4. Bid Proposal Forms. Bid proposals must be made on a form obtained from the District. All items on the form should be filled out. Numbers should be stated in figures, and the signatures of all individuals must be in long hand. The completed form should be without interlineations, alterations, or erasures.

5. Execution of Forms. Each bid must give the full business address of the bidder and must be signed by the bidder with his or her authorized signature. Bids by partnerships must furnish the full names of all partners and must be signed in the partnership name by a general partner with authority to bind the partnership in such matters. Bids by corporations must be signed with the legal name of the corporation, followed by the signature and designation of the president, secretary, or other person authorized to bind the corporation in this matter. The name of each person signing shall also be typed or printed below the signature. When requested by the District, satisfactory evidence of the authority of the officer signing on behalf of the corporation shall be furnished. A bidder's failure to properly sign required forms may result in rejection of the bid. All bids must include the bidder's California contractor's license number and expiration date.

6. Bid Security. Bid proposals should be accompanied by a cashier's check or bidder's bond for an amount not less than ten percent (10%) of the bid amount. The cashier's check or bid bond shall be made payable to the order of the District. If the bid bond accompanies the proposal, the bond shall be secured by an admitted surety company, licensed in the State of California, satisfactory to the District. The cashier's check or bond shall be given as a guarantee that the bidder will enter into the contract if awarded the work, and in the case of refusal or failure to enter into the contract within ten (10) calendar days after notification of the award of the contract, the District shall have the right to award to another bidder. If the bidder fails or refuses to timely enter into the contract, the District reserves the right to declare the bid bond forfeited and to pursue all other remedies in law or equity relating to such breach including, but not limited to, seeking recovery of damages for breach of contract. Failure to provide bid security, or bid security in the proper amount, will result in rejection of the bid.

7. Withdrawal of Bid Proposals. Bid proposals may be withdrawn by the bidders prior to the time fixed for the opening of bids, but may not be withdrawn for a period of forty-five (45) calendar days after the opening of bids.
8. **Addenda or Bulletins.** Any addenda or bulletins issued during the time of bidding shall form a part of the drawings and specifications issued to bidders for the preparation of their proposals and shall constitute a part of the Contract Documents. No addendum will be issued on such requests received later than five (5) calendar days before the scheduled opening of bids.

9. **Award of Contract.** The District reserves the right to reject any and all bid proposals to contract work with whomever and in whatever manner the District decides, to abandon the work entirely and to waive any informal or non-substantive irregularity as the interest of the District may require.

10. **Bonds.** The successful bidder shall be required to submit payment and performance bonds as specified in the Contract Documents. All required bonds shall be calculated on the maximum total purchase price. A bidder's failure to submit the bonds requested shall result in rejection of the bid proposal.

11. **Rejection of Bids and Award of Contract.** The District reserves the right to waive any irregularities in the bid and the right to accept or reject any and all bids, or to accept or reject any portion or combination thereof, or award on the basis of the total bid, when to do so is in its own best interest. The Contract will be awarded within forty-five (45) calendar days after opening of Bids to the lowest responsible Bidder complying with the requirements of the Contract Documents, subject to Governing Board approval. The time for awarding the Contract may be extended by the District with the consent of the lowest responsible Bidder.

12. **Execution of Contract.** The successful bidder shall, within ten (10) calendar days of notice of award of the contract, sign and deliver to the District, without exception, the executed District contract along with the bonds and certificates of insurance required by the Contract Documents. In the event the bidder to whom an award is made fails or refuses to execute the contract within ten (10) calendar days from the date of receiving notification that the contract has been awarded to the bidder, or fails to provide the required bonds and certificates, the District may declare the bidder's bid deposit or bond forfeited as damages caused by the failure of the bidder to enter into the contract, and may award the work to the next lowest responsible bidder, or may reject all bids and, at its sole discretion, call for new bids.

13. **Drawings and Specifications.** Each bidder shall be required to return to the District all drawings and specifications in an unencrypted condition and without any marks or annotations. All drawings, specifications and other documents used or prepared during the project shall be the exclusive property of District.

14. **Evidence of Responsibility.** Upon the request of the District, a bidder shall submit promptly to the District satisfactory evidence showing the bidder's financial resources, the bidder's experience in the type of work being required by the District, the bidder's organization and workforce available for the performance of the contract and any other required evidence of the bidder's qualifications to perform the proposed contract. The District may consider such evidence before making its decision awarding the proposed contract. Failure to submit evidence of a bidder's responsibility to perform the proposed contract may result in rejection of the bid.

15. **Taxes.** Taxes shall be included in the bid prices.

16. **Bid Exceptions.** The taking of bid exceptions or providing false, incomplete or unresponsive statements may result in the disqualification of the bid.

17. **Discounts.** Any discounts which the bidder desires to provide the District must be stated clearly on the bid form itself so that the District can calculate properly the net cost of the bid proposal. Offers of discounts or additional services not delineated on the bid form will not be considered by the District in the determination of the lowest responsible bidder.

18. **Quantities.** The quantities shown are approximate. The District reserves the right to increase or decrease quantities as desired.
19. **Prices.** Bidders must quote prices F.O.B. unless otherwise noted. Prices should be stated in the units specified and bidders should quote each item separately.

20. **Samples.** On request, samples of the products being bid shall be furnished to the District at no cost to the District.

21. **Special Brand Names.** In describing any item, the use of a manufacturer or special brand, except in those instances where the product is designated to match others in use on a particular public improvement either completed or in the course of completion, does not restrict bidding to that manufacturer or special brand, but is intended only to indicate quality and type of item desired. Bidders may furnish any material, product, thing or service of comparable quality or utility. If a bidder is requesting substitution of "an equal" item, the make and grade of the article on which the bid is submitted must be stated in the bid proposal and illustrations and catalogue information submitted. The District reserves the right to make all decisions on product and vendor selection.

22. **Container Costs and Delivery.** All costs for containers shall be borne by the bidder. All products shall conform to the provisions set forth in the federal, county, state and city laws for their production, handling, processing and labeling. Packages shall be so constructed to ensure safe transportation to point of delivery.

23. **Bid Negotiations.** A bid response to any specific item of this bid with terms such as "negotiable", "will negotiate" or similar, will be considered as non-compliance with that specific term.

24. **Prevailing Law.** In the event of any conflict or ambiguity between these instructions and state or federal law or regulations, the latter shall prevail. Additionally, all equipment to be supplied or services to be performed under the bid proposal shall conform to all applicable requirements of local, state and federal law, including, but not limited to, California Labor Code Sections 1771, 1778 and 1779.

25. **Governing Law and Venue.** In the event of litigation, the bid documents, specifications and related matters shall be governed by and construed in accordance with the laws of the State of California. Venue shall be with the appropriate state or federal court located in Alameda County, California.

26. **Subcontractors.** Pursuant to the Subletting and Subcontracting Fair Practices Act, Public Contract Code Sections 4100-4114, inclusive, every bidder shall, on the enclosed form set forth:

(a) The name, location of the place of business, and all information required on the Subcontractor List for each subcontractor who will perform work or labor or render service to the bidder in or about the work in an amount in excess of one-half (1/2) of the one percent (1%) of the bidder's total bid.

(b) The portion of the work which will be done by each subcontractor. If the bidder fails to specify a subcontractor for any portion of the work to be performed under the contract in excess of one-half (1/2) of one percent (1%) of the bidder's total bid, bidder agrees that bidder is fully qualified to and will perform that portion of the work. The successful bidder shall not, without the consent of the District, and in compliance with Public Contract Code Sections 4100 - 4114, either:

(1) Substitute any person as subcontractor in place of the subcontractor designated in the original bid;

(2) Permit any subcontract to be voluntarily assigned or transferred or allow the work to be performed by anyone other than the original subcontractor listed in the bid; or

(3) Sublet or subcontract any portion of the work in excess of one-half (1/2) of one percent (1%) of the total bid as to which the bidder's original bid did not designate a subcontractor.
27. **Examination of Contract Documents and Work Site.** Before submitting a bid proposal, bidders shall examine the contract, the drawings, the specifications and other Contract Documents. Bidders shall visit the site of the proposed work and shall fully inform themselves of all conditions in and about the work site, the building or buildings, if any, and any work that may have been done thereon. However, no bidder shall visit the site without prior authorization. All bidders are requested to contact the Physical Plant Department or designee for coordination of site visits. Submission of a bid proposal constitutes acceptance of the terms of this provision.

28. **Form of Contract.** The bidder selected by the District will be required to execute, without exception, a contract included in the bidding package. The contract and other documents are subject to the approval of the District and its legal counsel.

29. **Licenses.** Each bidder, and their subcontractors, if any, must possess all appropriate and required licenses or other permits to perform the work as identified in contract documents. Upon request, each bidder shall furnish the District with evidence demonstrating possession of the required licenses or permits. Failure to submit such evidence to the District’s satisfaction may result in rejection of the bid.

30. **Denial of Right to Bid.** Contractors or subcontractors who have violated state law governing public works shall be denied the right to bid on this public work contract as set forth in California Labor Code Section 1777.7.

31. **Bidders Interested in More Than One Bid.** No person, firm, or corporation shall be allowed to make, or file, or be interested in more than one bid unless alternate bids are specifically called for. A person, firm, or corporation that has submitted a sub-proposal to a bidder, or that has quoted prices of materials to a bidder, is not thereby disqualified from submitting a sub-proposal or quoting prices to other bidders or make a prime proposal.

32. **Contractors State License Board.** Contractors are required by law to be licensed and regulated by the Contractors State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractors State License Board, P. O. Box 26000, Sacramento, California 95826.

33. **Work Performed Not During Regular Workweek and Afterhours.** Most of the door access scope will involve perimeter doors and thus can be performed during the regular workweek. However, some door access tasks might involve classroom doors and will need to be performed when class is not in session. Similarly, classroom motion access devices will need to be addressed when classes are not being held. This may entail work afterhours which potentially could be performed on the graveyard shift.

33. **Additive and Deductive Alternates, Unit Prices, and Allowance Items:** Method of Determining Lowest Bid. Pursuant to Public Contract Code section 20103.8, should this bid solicitation include additive and/or deductive alternates, unit prices and allowance items, the checked [X] method shall be used to determine the lowest bid:

- (a) The lowest bid shall be the lowest bid price on the base contract without consideration of the prices on the additive or deductive alternates, unit prices, and allowance items.

- (b) The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive alternates, unit prices, and allowance items that were specifically identified in the bid solicitation [see bid proposal form] as being used for the purpose of determining the lowest bid price.

- (c) The lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive alternates, unit prices, and allowance items taken in order from a specifically identified list of those items, depending upon available funds as identified in the solicitation.

- (d) The lowest bid shall be determined in a manner that prevents any information that would identify any of the bidders from being revealed to the public entity before the ranking of all bidders from lowest to highest has been determined.

If no method is checked, sub-paragraph (b) shall be used to determine the lowest bid.
Notwithstanding the method used by the District to determine the lowest responsible bidder, the District retains the right to add to or deduct from the contract any of the additive or deductive alternates, unit prices, and allowance items included in the bid solicitation.
**Peralta Community College District**

**Prevailing Wage Determination**

The Governing Board has obtained from the Director of the Department of Industrial Relations, the general prevailing rate of per diem wages in the locality in which the work is to be performed for each craft, classifications or type of worker needed to execute the contract, including employer payments for health and welfare, pension, vacation, apprenticeship and similar purposes. Copies of these prevailing rates are Internet accessible at [http://www.dir.ca.gov/DLSR/statistics_research.html](http://www.dir.ca.gov/DLSR/statistics_research.html) or shall be made available at the District's Purchasing office to any interested party upon request during regular business hours. For this bid, wage determination **2010-1** shall be used.

The schedule of per diem wages is based upon a working day of eight hours. The rate for holiday and overtime work shall be at least time and one half.

It shall be mandatory upon the contractor to whom the contract is awarded, and upon any subcontractor under him, to pay not less than the specified rates to all workers employed by them in the execution of the contract. It is the contractor's responsibility to determine any rate change, which may have or will occur during the intervening period between each issuance of published rates by the Director of Industrial Relations.

**Project Labor Agreement**

The Peralta Community College District has entered into a Project Labor Agreement (PLA) for all its Public Works construction projects, which requires that the successful General Contractor, and its field Subcontractors to sign the applicable Letter of Assent (LOA). The complete text including the terms and conditions, and the LOA, are included in the bid package for review by all Contractors bidding on this project. Contractors contemplating bidding on this project are strongly encouraged to review the complete PLA documents, but should at minimum be aware of the following:

- No work stoppages, strikes, sympathy strikes, slowdowns or lockouts are allowed during the execution of the work.
- There are provisions for alternative dispute resolution, depending on affected crafts.
- Based on a formula and certain basic requirements, a Contractor may use up to five (5) “core” workers, but all workers must be dispatched through the applicable union halls.
- There are goals for the utilization of local workers, utilizing the normal hiring hall procedures for dispatch.

A Contractor is not required to become signatory to a union to work on a project covered by the PLA, but is required to sign a Letter of Assent (LOA) agreeing to work under the terms of the PLA, on a project by project basis. Workers are not required to join a union but must be dispatched through a union hiring hall and must pay union initiation fees and dues when working on a project covered by the PLA.

The District's PLA Program Manager for this project is:

Mr. Jake Sloan  
Davillier-Sloan—Labor Management Consultants

Please direct all PLA questions to the Primary Contact listed in the “Questions about the Bid or Requests for Information” section of the Invitation For Bid, and the Primary Contact will forward your question to the PLA Program Manager, to be answered as part of the formal Addendum for this bid.
Peralta Community College District

BID FORM (Page 1 of 2)

11-12/23 District Wide Access Control and Alarm Monitoring System

The undersigned having carefully examined the location of the proposed work, the local conditions of the place where the work is to be done, the Invitation for Bid, the General Conditions and Instructions to Bidders, the Peralta Community College District (District) Contract, the Specifications and all of the contract documents for this project, and accurately completed the Vendor's Questionnaire, proposes to perform the contract, including all of its component parts, and to furnish any and all required labor, materials, equipment, insurance, permit, bonding, transportation and services required for the construction of the project in strict conformity with the plans and specifications prepared, including any Addenda, within the time specified for the lump sum price of (including all taxes):

Agreement Terms

1. If awarded the contract, the undersigned hereby agrees to sign said contract and furnish the necessary Payment Bond, Performance Bond, and Certificates of Insurance within 10 calendar days after the Notice of the Award of this contract and agrees to commence construction within 10 calendar days after the Notice to Proceed is issued by the District.

2. The undersigned has checked carefully all the above figures and understands that the District will not be responsible for any errors or omissions on the part of the undersigned in making up this bid.

Contractor Name: ___________________________  Initials: ________________
Agreement Terms Continued

3. Peralta Community College District reserves the right to reject any or all bids, to waive any irregularities or informalities not affected by law, to evaluate the bids submitted and to award the contract according to the proposal which best serves the interests of the District.

4. All pages of this Bid Form must be completed and signed in ink. The bid will be awarded to the lowest responsive, responsible bidder.

Bid Bond

Each bid shall be accompanied by a cashier's check payable to the Peralta Community College District, or a bidder's bond executed by an admitted surety insurer, licensed to do business in the State of California as a surety, made payable to the Peralta Community College District in an amount not less than ten percent (10%) of the maximum amount of the bid. The check or bid bond shall be given as a guarantee that the bidder to whom the contract is awarded shall execute the contract documents and shall provide the required payment and performance bonds as specified therein within ten (10) days after the notification of the award of the contract.

**Amount** – Bidders **must** enclose an amount of not less than 10 percent of the entire bid as **either**:

- _____ Cashier's Check: Check Number: ________________________________
  Issuing Bank: _________________________________________
  Amount: $__________________________

- _____ Bidder's Bond: Surety Company: ________________________________

Addendum Acknowledgement

The following addendum(s) are acknowledged in this bid: _________________________

**Proof of Lenel (VAR) Master Technician Certification.**

Because of the extensive integration requirements with the existing Lenel OnGuard Enterprise ACAMS, the prime bidder must be listed as a Lenel VAR and must provide Proof of Lenel Technical Certification with submission of sealed bids. Proof shall consist of a copy of the Lenel Master Technician Certificate for each senior technician/project manager that will be assigned to the project.

# SUBCONTRACTOR LIST FORM

## 11-12/23 District Wide Access Control and Alarm Monitoring System

### No Subcontractors

_____ Check here and skip to the “Signature” section if you have no subcontractors who will perform contract work in an amount in excess of 1/2 of 1 percent of the total contract price.

### Subcontractors

In accordance with the provisions of Public Contract Code section 4104, each bidder shall list below the name and location of place of business for each sub-contractor who will perform a portion of the contract work in an amount in excess of 1/2 of 1 percent of the total contract price. In each such instance, the nature of the work to be sublet shall be described. **All columns must be completed.**

### Signature

Contractor Name: ________________________ Title: ______________________________

Authorized Signature: ______________________________ Date: ________________
Know all men by these presents, that we _____________________________ as principal, and _____________________________ as surety are firmly bound unto the Peralta Community College District (hereinafter "District"), in the penal sum of TEN PERCENT (10%) of the Total Amount of the Bid of the Principal submitted to the said DISTRICT for the work described below for the payment of which sum in lawful money of the United States, well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally, firmly by the presents.

The condition of this obligation is such that whereas the Principal has submitted the accompanying bid dated _____________________________ for ____________________________________________________________

Now, therefore, if the Principal shall not withdraw said bid within the period specified therein after the opening of the same, or if no period be specified within sixty (60) calendar days after said opening; and if the Principal is awarded the contract and shall within the period specified thereafter, or, if no period be specified, within five (5) calendar days after the prescribed forms are presented to him or her for signature, enter into a written contract with DISTRICT, in accordance with the bid as accepted or fail to give bond with good and sufficient surety or sureties as may be required, for the faithful performance and proper fulfillment of such contract and for the payment for labor and materials used for the performance of the work of installation under the contract, or in the event of the withdrawal of said bid within the period specified or the failure to enter into such contract and give such bonds within the time specified, if the Principal shall pay DISTRICT the difference between the amount specified in said bid and the amount for which DISTRICT may procure the required work and/or supplies, if the latter amount be in excess of the former, together with all costs incurred by DISTRICT in again calling for bids, then the above obligation shall be void and of no effect, otherwise to remain in full force and virtue.

Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the term of the contract on the call for bids, or to the work to be performed thereunder, or the specifications accompanying the same shall in anywise affect its obligation under this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of said contract or the call for bids, or to the work, or to the specifications.

In the event suit is brought upon this bond by DISTRICT and judgment is recovered, the Surety shall pay all costs incurred by DISTRICT in such suit, including a reasonable attorney's fee to be fixed by the court.

In witness whereof the above-bounded Parties have executed this instrument under their several seals this day of _____________________________, the name and corporate seal of each corporate Party being hereunder affixed and these presents duly signed by its undersigned representative, pursuant to the authority of its governing body.

NON-COLLUSION AFFIDAVIT
(To be executed by bidder and submitted with bid)

11-12/ 23 District Wide Access Control and Alarm Monitoring System

State of California, County of _______________

(Name) ____________________________________________, being first duly sworn, deposes and says that he or she is (title)______________________ of (company)____________________________ the party making the foregoing bid that the bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation; that the bid is genuine and not collusive or sham; that the bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid, and has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding; that the bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder, or to secure any advantage against the public body awarding the contract of anyone interested in the proposed contract; that all statements contained in the bid are true; and, further, that the bidder has not, directly or indirectly, submitted his or her bid price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, or paid, and will not pay, any fee to any corporation, partnership, company association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid.

I certify (or declare) under penalty of perjury that the foregoing is true and correct.

Date:  ____________________ Signature:  ____________________________________________
Peralta Community College District

SMALL LOCAL BUSINESS ENTERPRISE and SMALL EMERGING LOCAL BUSINESS ENTERPRISE PROGRAM

The District is committed to ensure equal opportunity and equitable treatment in awarding and managing its public contracts and has established an annual overall program goal of twenty-five percent participation for small local businesses. To facilitate opportunities for small local business, the District will use a maximum 5% bidding preference for SLBE and SELBE firms. The preference is only used for computation purposes to determine the winning bidder, the contract is awarded at the actual bid amount. Please review the following guidelines to see if your firm qualifies for the preference.

The 5% bidding preference for an SLBE and SELBE firms are for construction, personal and professional services, goods and services, maintenance, repairs, and operations where responsibility and quality are equal. The preference will be 5% of the bid amount of the lowest responsive responsible bidder, and may not exceed $50,000.00 for any bid.

A Non-SLBE/SELBE Prime Contractor who utilizes 25% of total bid amount, with SLBE or SELBE subcontractors (who meet the District’s Definition of an SLBE and SELBE), can also receive a maximum of 4% bidding preference, not to exceed $50,000.00 for any bid. (See below Subcontractors section.)

Definitions:

**SLBE**: A Small Local Business Enterprise is a business that has not exceeded gross annual revenue of 8.5 million dollars for a construction firm, or 6 million dollars for goods and non-professional services firm, or 3 million dollars for architecture, engineering and professional services firm, for the past three consecutive years and meets the below geographic location requirements.

**SELBE**: A Small Local Emerging Business Enterprise is a business that has not exceeded gross annual revenue of 1.5 million dollars for the past three consecutive years and meets the below geographic location requirements.

**Commercially Useful Function**: Shall mean a business is directly responsible for providing the materials, equipment, supplies or services to the District as required by the contract solicitation. The business performs work that is normal for its business services and carries out its obligation by actually performing, managing, or supervising the work involved. The business is not Commercially Useful if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of SLBE or SELBE participation.

**Geographic Location Requirements**:

- The business must be located at a fixed, established commercial address located in the District's market area of Albany, Alameda, Berkeley, Emeryville, Oakland, or Piedmont, and not a temporary or movable office, a post office box, or a telephone answering service.

- If the business has an office outside of the District's market area as well as an office within the market area, the office within the District's market area must be staffed on a full time permanent basis with someone employed by the business.

- If requested, the business that has an office outside of the District's market area must provide proof of one or more past contracts citing the business address (such as contracts to perform work, to rent space or equipment, or for other business services) was within the District's market area at least one (1) year prior to the date of contract award. The one-year requirement does not apply to businesses whose sole establishment is located within the District's market area.
Subcontractors:

Non-SLBE/SELBE Prime Contractors who use subcontractors, who meet the district definitions of SLBE and SELBE, may receive a maximum of 4% bidding preference if the following conditions are met:

1. 25% of total bid amount is with Subcontractors who meet the District’s definition of an SLBE and SELBE. The Prime Contractor must list each Subcontractor on the Subcontractor List form, clearly identifying the SLBE and SELBE status and the Dollar Amount of work each subcontractor will perform.

2. The Subcontractors must provide a Commercially Useful Function.

3. The Prime Contractor must maintain the Subcontractor percentages (based on the quoted dollar amounts) indicated in the Subcontractor List form at the time the Contract is awarded and throughout the term of the Contract.

4. The Prime Contractor must fill out sign the SLBE/SELBE Self Certification Affidavit and return it with the bid documents, and 48 hours after the bid opening the Prime Contractor must submit signed SLBE/SELBE Self Certification Affidavit from each of the SLBE and SELBE subcontractors listed in the Subcontractor form. The Subcontractor must agree to provide the requested documentation to verify the SLBE/SEBLE status.

5. No Substitutions can be made to the SLBE and SELBE subcontractor without the prior written approval of the District. The District will approve a subcontractor substitution on the following conditions:
   a. A written statement from the subcontractor agreeing to the substitution.
   b. When the subcontractor has been given a reasonable opportunity to execute the subcontract, yet fails to, or refuses to execute the subcontract, or refuses to satisfy contractual obligations.
   c. When the subcontractor becomes insolvent.
   d. When the District determines the work performed by the subcontractor is not in accordance with the contact agreement, or the subcontractor is substantially and unduly delaying or disrupting the progress of work.

Firms that meet the District criteria for an SLBE and SELBE can complete the below self-certification affidavit signed under penalty of perjury. Firms claiming SLBE and SELBE status in the self-certification affidavit will be required to submit proof of residency and revenue 48 hours after bid opening. Such proof shall consist of a copy of a contract to perform work, to rent space or equipment, or for other business services, executed from their local address, and the firm’s tax returns for the past three consecutive years.
SLBE/ SELBE SELF CERTIFICATION AFFIDAVIT

I certify under penalty of perjury that my firm meets the District's definition of a Small Local Business Enterprise or a Small Emerging Local Business Enterprise and resides in the geographic location of the District's market area and qualifies for the below preference. The maximum preference will be five percent of the bid amount of the lowest responsible bidder, and may not exceed $50,000.00 for any bid. The preference is only used for computation purposes to determine the winning bidder; the contract is awarded at the actual bid amount. The District's Contract Compliance Office will determine whether this requirement has been fulfilled. Bidders may only claim one of the below preferences.

1. I acknowledge and am hereby advised that upon a finding of perjury with the claims made in this self certification affidavit the District is authorized to impose penalties which may include any of the following:
   a) Refusal to certify the award of a contract
   b) Suspension of a contract
   c) Withholding of funds
   d) Revision of a contract for material breach of contract
   e) Disqualification of my firm from eligibility for providing goods and services to the Peralta Community College District for a period not to exceed five (5) years

2. I acknowledge and have been advised and hereby agree that my firm will be required to provide proof (and if applicable, my SLBE and SELBE Subcontractors will provide proof) of the status claimed on this self-certification affidavit 48 hours after bid opening. Proof of status claimed includes tax returns from the previous three years and past contracts to determine the size and geographical location of my firm.

3. I declare that the above provisions are attested to under penalty of perjury under the laws of the State of California.

It is the policy of the Peralta Community College District (Board Policy 2.40, Environmental Sustainability), to purchase products or services that help to minimize the adverse effects on human health and the environment, when compared to other products and services that serve the same purpose with comparable efficacy. The District recognizes that environmentally responsible purchasing will help create and sustain markets for environmentally sustainable products, and is committed to encouraging the procurement of products with high recycled content, FSC certified lumber, Energy Star rated equipment, low and no VOC paints, low-toxicity cleaning supplies and Green Seal approved chemicals, and will promote contracting with businesses in close proximity, to reduce our carbon footprint and to promote the District's SLBE program.

For Operation and Construction services the District is committed to:
- Utilizing LEED (Leadership in Energy and Environmental Design) or equivalent certification criteria as follows:
  - All new building projects shall qualify for at least LEED NC Silver certification and shall strive for higher levels of certification, especially where overall long-term building operations, student learning, and worker productivity savings can be realized through doing so.
  - All renovation projects over 10,000 square feet shall meet basic “LEED Existing Building” certification standards.
- Maximizing energy efficiency throughout the District, in particular, heating, cooling, lighting, information technology, mechanical, and water systems. It is the goal of the District to reduce dramatically our energy consumption for existing buildings and for all new buildings to exceed the State of California Building Code Title 24 energy efficiency requirements by no less than 35%.
- Reduction of water consumption for all uses, including for irrigation and domestic purposes.
- Waste source reduction and the re-use of materials. The District encourages all contractors to re-use and recycle as much construction and demolition debris as possible, and only when it is not feasible to do so, dispose of it in a landfill. All contractors must adhere to the District’s Construction Debris Reporting Requirements.
- Sustainable landscaping and grounds design, construction and maintenance practices which promote integrated pest management and use of drought tolerant, fire safe, and native vegetation types.

All public work projects must adhere to the District Environmental Sustainability Policy 2.40. The formal policy is available for download at www.peralta.edu; click on the District Services Center tab and then Purchasing to view the environmentally sustainable purchasing policy.

**Signature**

I acknowledge and agree to adhere to the District’s Environmental Sustainability policy.

Contractor Name: _______________________  Title: _______________________________

CERTIFICATE REGARDING WORKERS' COMPENSATION

Labor Code Section 3700 in relevant part provides:

"Every employer except the State shall secure the payment of compensation in one or more of the following ways:

(a) By being insured against liability to pay compensation in one or more insurers duly authorized to write compensation insurance in this State.

(b) Be securing from the Director of Industrial Relations a certificate of consent to self-insure, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his employees."

I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this Contract and will require all subcontractors to do the same.

___________________________________________
Contractor

By: _______________________________________

(In accordance with Article 5 [commencing at Section 1860], Chapter 1, Part 7, Division 2 of the Labor Code, the above certificate must be signed and filed with the awarding body prior to performing any work under this Contract.)
Statement of Equal Employment Opportunity

I hereby certify that ________________________________________________________

(Legal Name of Vendor/Consultant/Contractor)

Will not discriminate against any employee or applicant for employment because of race, creed, sex, color or national origin and shall insure compliance with all provisions of Executive Order No. 11246 (as amended by Executive order No.11375).

The vendor’s questionnaire requests information for record keeping purposes only. The information requested will not be used as a basis for contract award.

However, after a contract is awarded to your company, the District requires your company to report:

a. Actual racial, gender and residential workforce composition of your company for the contract work.

b. Actual racial, gender and residential workforce composition of subcontractors for the contract work.

c. Number of apprenticeship workforce for the contract work.

This report must be submitted to the District Department of General Services on a quarterly basis.

I declare under penalty of perjury under the laws of the state of California that the information I have provided herein is true and correct and is of my own personal knowledge.

PERFORMANCE BOND

Know all men by these presents, that

WHEREAS, Peralta Community College District (hereinafter DISTRICT), at a regular Business Meeting on ________________, have awarded to ________________________________, hereinafter designated as the Principal, a contract for _____________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________
_____________________________________________________________________________________
and
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________
_____________________________________________________________________________________
WHEREAS, said Principal is required under the terms of said contract to furnish a bond for the faithful performance of said contract;

NOW, THEREFORE, We, the Principal and

__________________________________________, as Surety, are held and firmly bound unto the Peralta Community College District, hereinafter called the DISTRICT, in the penal sum of ____________________________ DOLLARS ($______________________ ) lawful money of the United States for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents.

The condition of the obligation is such, that if the above bounden Principal, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the said contract and any alteration thereof made as therein provided, on his or their parts to be kept and performed at the time and in the manner therein specified, and in all respects according to their true intent and meaning, and shall indemnify and save harmless DISTRICT, its officers and agents, as therein stipulated, then this obligation shall become null and void. Otherwise it shall be and remain in full force, virtue, and effect.

And the said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the specifications accompanying the same shall in any wise affect its obligations on this bond, it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the contract or to the work or to the specifications.

In the event suit is brought upon this bond by the District and judgment is recovered, Surety shall pay all costs incurred by the District in such suit, including reasonable attorney’s fees to be fixed by the court.

Surety further agrees that death of the Contractor shall not relieve the surety of its obligations hereunder.

In witness whereof, two (2) identical counterparts of this instrument, each of which shall for all purposes be deemed an original thereof, have been duly executed by the Principal and Surety above named on the ________ day of ______________________, 20__.

Required attachment: County Clerk’s Certificate pursuant to CCP section 995.640 or confirming information from Department of Insurance website within seven days before contract submittal.
PAYMENT BOND

Know all men by these presents: that

WHEREAS, Peralta Community College District (hereinafter “DISTRICT”) and

hereinafter designated as the "Principal", have entered into a contract for the furnishing of all materials, labor services and transportation necessary, convenient, and proper which said Agreement dated and all of the contract documents attached to or forming a part of said Agreement, are hereby referred to and made a part hereof, and

WHEREAS, pursuant to law, the Principal is required before entering upon the performance of the work, to file a good and sufficient bond with the body by whom the contract is awarded, Sections 3247 to 3252, inclusive, of the Civil Code of California.

NOW, therefore, these presents witnesseth:
That the said Principal and the undersigned ____________________________________
____________________________, as corporate surety, are held and firmly bound unto all laborers, materialmen, and other persons referred to in said statutes in the sum of ______________________
_________________________________________________ DOLLARS ($ _________________), lawful money of the United States, by the terms of said contract, for the payment of which sum will and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, or assigns, jointly and severally by these presents.

The condition of this obligation is that if the said Principal or any of his or its subcontractors, or the heirs, executors, administrators, successors, or assigns of any, all or either of them shall fail to pay for any materials, provision, provendor or other supplies or teams used in, upon, for, or about the performance of the work contracted to be done, or for any work or labor hereon of any kind, or for amounts due under the Unemployment Insurance Act with respect to such work or labor, or for any of the persons named in Section 3181 of the California Civil Code, or for any amounts required to be deducted, withheld, and paid over to the Franchise Tax Board from the wages of employees of the Principal or any of his or its subcontractors pursuant to Section 18806 of the Revenue and Taxation Code with respect to such work or labor, that said Surety will pay the same in amount not exceeding the amount hereinabove set forth, and also, in case suit is brought upon this bond, will pay reasonable attorneys' fees to be awarded and fixed by the court and to be taxed as costs and to be included in the judgment therein rendered.

It is hereby expressly stipulated and agreed that this bond shall inure to the benefit of any and all persons, companies and corporations entitled to file claims under Section 3181 of the California Civil Code, so as to give a right of action to them or their assigns in any suit brought upon this bond.

Should the condition of this bond be fully performed, then this obligation shall become null and void, otherwise it shall be and remain in full force and effect.

And the said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of said contract or the specifications accompanying the same shall in any manner affect its obligations on this bond, and it does hereby waive notice of any such change, extension, alteration, or addition.

In witness whereof, this instrument has been duly executed by the Principal and Surety this __________________ day of ____________________.

(To be signed by Principal and Surety and acknowledgment and notary seal to be attached.)

Peralta Community College District

CONTRACT

THIS CONTRACT is made by and between the Peralta Community College District, hereinafter called the District, and ______________________________, hereinafter called the Contractor.

The District and the Contractor hereby agree as follows:

1. Description of Work

The Contractor agrees to furnish all labor, materials, equipment, plant, tools, supervision, appurtenances, and services, including transportation and utilities, required to perform and complete

______________________________________________________________________________

The Contract Documents consist of the Contract, any Amendment to Contract, Technical Specifications and Drawings, Supplementary General Conditions, General Conditions, Instructions to Bidders, Notice Inviting Bids, Bid Form, all addenda, completed bond and insurance forms, completed Bidder's Questionnaire, and

______________________________________________________________________________

All Contract Documents are intended to coordinate so that any work called for in one document and not mentioned in another document is to be executed as if mentioned in all documents.

2. Compensation

As full compensation for the Contractor's complete performance of the work in this Contract, the District agrees to pay the Contractor, and the Contractor agrees to accept the sum of ___________________________ which shall be paid to him according to the General Conditions Article on "Payments".

3. Prevailing Wages

As required by Labor Code Section 1773.2, the District has in its office the general prevailing rate of per diem wages for workers employed on public works as determined by the Director of Industrial Relations. This document shall be available to any interested party on request during regular business hours and shall be posted at the job site by the Contractor.

4. Time for Completion

The starting date of the Contract shall be the day listed by the District in the Notice to Proceed and the Contractor shall fully complete all the work before the expiration of _______ (See the Invitation for Bid cover page for Project Duration) _______ calendar days from said starting date.

Time is of the essence in the performance of this Contract.

Liquidated damages for Contractor's failure to complete the Contract within the time fixed for completion are established in the amount of _______ (See the Invitation for Bid cover page for Liquidated Damages figure) _______ per calendar day.
5. Contractor's State License Board

Contractors are required by law to be licensed and regulated by the Contractor's State License Board. Any questions concerning a contractor may be referred to the Registrar, Contractor's State License Board, P. O. Box 26000, Sacramento, California 95826.

IN WITNESS WHEREOF, the parties to these present have set their hands hereto on the day and year written below.

Bid Protest Procedures

Any Bidder submitting a Bid Proposal to the District may file a protest provided that each and all of the following are complied with:

(i) The bid protest is relevant and in writing;

(ii) The bid protest is filed and received by the District’s Purchasing Manager not more than five (5) calendar days following the date of the bid opening;

(iii) The written bid protest sets forth, in detail, all grounds for the bid protest, including without limitation all facts, supporting documentation, legal authorities and argument in support of the grounds for the bid protest; any matters not set forth in the written bid protest shall be deemed waived. All factual contentions must be supported by competent, admissible and creditable evidence.

Any bid protest not conforming to the foregoing shall be rejected by the District without recourse.

Provided that a bid protest is filed in strict conformity with the foregoing, the District’s Vice Chancellor of General Services or such individual(s) as may be designated by him/her, shall review and evaluate the basis of the bid protest and make a determination.

If the determination is unacceptable to the bid protestor, the Chancellor shall review and evaluate the basis of the bid protest and make a secondary determination.

If the bid protestor chooses to appeal the Chancellor’s determination, the District’s Board of Trustees will render a final determination and disposition of a bid protest by taking action to adopt, modify or reject the disposition of a bid protest. Action by the District’s Board of Trustees relative to a bid protest shall be final and not subject to appeal or reconsideration by the District, any employee or officer of the District or the District’s Board of Trustees.

In the event that any legal or equitable proceedings are instituted and the District is named as a party thereto, the prevailing party(ies) shall recover from the other party(ies), as cost, all attorneys’ fees and cost incurred in connection with any such proceeding, including any appeal arising there from.
Peralta Community College District

Construction Debris Reporting Requirements

The District is committed to Environmental Sustainability as a matter of public policy and to the greatest extent possible reducing its ecological footprint. The District encourages all contractors to re-use and recycle as much construction and demolition debris as possible, and only when it is not feasible to do so, dispose of it in a landfill. Per State Law AB75, on an annual basis the District is required to report all re-use, recycle, and garbage disposal tonnage to the State of California.

As a condition for the completion of the construction project, the contractor must report all re-use, recycling, and disposal of construction materials at the completion of the project (or annually by January 31st of the following year if the project’s completion is more than one calendar year). The contractor may use the below form to report to the District all construction debris off-hauled from the District’s construction site, or may submit the below required information on the contractor’s letterhead. This form must be submitted by January 31st to the District at: Peralta Community College District, Department of General Services, 333 East 8th Street, Oakland, CA, 94606, Attention Facilities Project Coordinator

Construction Debris Reporting for: January 1, 20____ to December 31, 20____.

Construction Protocol Procedures

**Director of Physical Plant:**
1. Notify College Business Officer (in writing) at least 2 weeks in advance of any work to be done on campus, including dates, times, locations of work; provide name and cell phone # of project manager.

2. Receive from College Business Officer (in writing) a list of concerns, issues, problems that need to be addressed/taken into account as well as a list of faculty members and departments that will be affected by each project.

3. Collect/withhold an indemnity amount from the contractor for unanticipated cleaning costs, repairs, and replacement of any furniture, equipment, tools, etc. lost, damaged, or destroyed as a result of construction.

4. Direct the Project Manager to personally meet with the College Business Officer and faculty involved/affected with each project and sign-off on plan of operations.

5. Notify the faculty (in writing) that it is not their responsibility to clean, store, remove, replace, any equipment, furniture, tools, etc.

**College Business Officer:**
1. Notify the faculty (in writing) of any construction projects (including dates, times, locations) that will take place in their area.

2. Meet with the faculty to gather their concerns, issues, problems, and convey those (in writing) to the Vice Chancellor of General Services and the Project Manager; also convene a meeting with the Project Manager to convey these concerns in person.

3. Notify (in writing) the appropriate Dean(s) and the VP of Instruction of any needs to find alternate space for storage, equipment, furniture, tools, classrooms.

4. Notify (in writing) Locals 790 and 39 of the impending project and the need to remove, store, replace, protect, and clean as well as whatever is needed in the way of establishing alternate workspaces.

5. Convey all of the above information to the Director of Physical Plant and the Project Manager.

**Project Manager:**
1. Needs to meet on campus, on site, with the affected faculty to be sure all of the college's concerns have been addressed, understood, and agreed to in a written plan of operations; the written plan should be given to the contractor and the Vice Chancellor of General Services.

2. No project should begin without a written plan that has not been signed by the VP of Instruction, Academic Dean, College Business Officer, Faculty/Department Chair(s), Project Manager, Contractor, and Director of Capital Projects.
PART 1 - GENERAL

1.01 SUMMARY
A. The contractor is responsible for daily cleanup and a final cleaning prior to occupancy. This section only addresses the final cleaning required prior to punchlisting and occupancy.
B. Cleaning Program:
   1. The cleaning program shall include all construction areas and surrounding areas affected by the construction including site, exteriors of buildings / structures, roofs and interior of buildings.
   2. The areas to be cleaned shall be turned over to the owner in a "move-in" condition.
   3. All areas shall be free of all construction materials, dust, debris, markings and dirt.
   4. All surfaces shall be washed, cleaned and cleared of markings.
   5. All existing and new fixtures shall be cleaned, sanitized and ready for use.
   6. All new and existing hard surface floors will be stripped and waxed.

1.02 PROJECT CONDITIONS
A. Environmental Requirements: Conduct cleaning and waste-disposal operations in compliance with PCCD Construction Debris Reporting Requirements.
B. Comply fully with Federal and local environmental and antipollution regulations.
   1. Do not dispose of volatile wastes, such as mineral spirits, oil, or paint thinner, in storm or sanitary drains.
   2. Burning or burying of debris, rubbish, or other waste material on the premises is not permitted.

PART 2 - PRODUCTS

2.01 MATERIALS AND METHODS
A. Use cleaning materials and methods which will not create hazards to health or property or cause damage to products and which are recommended by manufacturers of products to be cleaned.

PART 3 - EXECUTION

3.01 FINAL CLEANING
A. General: Provide final cleaning operations. Employ experienced workers or professional cleaners for final cleaning. Clean each surface or unit of Work to the condition expected from a commercial building cleaning and maintenance program. Comply with manufacturer's instructions.
B. Complete the following cleaning operations before requesting inspection for certification of Substantial Completion for the entire Project or a portion of the Project.
   1. Clean the Project Site, yard and grounds, in areas disturbed by construction activities, including landscape development areas, of rubbish, waste material, litter, and foreign substances.
   2. Sweep paved areas broom clean. Rake grounds that are neither planted nor paved to a smooth, even-textured surface.
   3. Remove petrochemical spills, stains, and other foreign deposits.
   4. Remove tools, construction equipment, machinery, and surplus material from the site.
5. Clean exposed exterior and interior hard-surfaced finishes to a dirt-free condition, free of stains, films, and similar foreign substances. Avoid disturbing natural weathering of exterior surfaces. Restore reflective surfaces to their original condition.

6. All walls not newly painted shall be washed to clean readily removable dirt, markings, dust, and grime.

7. Remove debris and surface dust from limited access spaces, including roofs, attics and similar spaces.

8. All existing floors shall be thoroughly stripped of old wax and have at least four (4) coats of a combination wax/sealer, or two (2) coats of sealer and four (4) coats of wax. Contractor shall submit for prior approval manufactures information on floor finish to be applied. All new floors shall have their factory seal stripped off and shall have a floor finish applied according to the recommendations of the manufacturer.

9. New carpeted areas shall be thoroughly vacuumed, including edges. Any spotting during construction shall be removed. Existing carpeted areas shall be thoroughly shampooed.

10. Clean transparent materials, including mirrors and glass in doors and windows. Remove glazing compounds and other substances that are noticeable vision obscuring materials. Replace chipped or broken glass and other damaged transparent materials. Polish mirrors and glass, taking care not to scratch surfaces. Clean interior and exterior of all windows.

11. Clean all Toilet Rooms thoroughly and sanitized. All wall surfaces shall be free of grime, dirt, dust, markings and graffiti. All mirrors, fixtures, and partitions will be cleaned free of dirt and markings.

12. Scrub and seal all ceramic and terrazzo floors and walls.

13. Remove labels that are not permanent labels.

14. Touch up and otherwise repair and restore marred, exposed finishes and surfaces. Replace finishes and surfaces that cannot be satisfactorily repaired or restored or that already show evidence of repair or restoration.

15. Wipe surfaces of mechanical and electrical equipment, elevator equipment, and similar equipment. Remove excess lubrication, paint and mortar droppings, and other foreign substances.

16. Clean plumbing fixtures to a sanitary condition, free of stains, including stains resulting from water exposure.

17. Replace disposable air filters and clean permanent air filters. Clean all exposed surfaces of diffusers, registers, and grilles.

18. Clean ducts, blowers, and coils if units were operated without filters during construction.

19. Clean light fixtures, lamps, globes, and reflectors to function with full efficiency. Replace burned out bulbs; defective and noisy starters in fluorescent fixtures, and defective dimming switches.

20. Leave the Project clean and ready for occupancy.

C. Removal of Protection: Remove temporary protection and facilities installed during construction to protect previously completed installations during the remainder of the construction period. Repair any damage from removal.

D. Compliances: Comply with governing regulations and safety standards for cleaning operations. Remove waste materials from the site and dispose of lawfully.

1. Where extra materials of value remain after completion of associated Work, they become the Owner's property. Dispose of these materials as directed by the Owner.

BIDDER:

I. INTRODUCTIONS:

A. Present

II. PROPOSED CONTRACT:

ADDENDUM NO.

III. PURPOSE OF INTERVIEW IS TO ASSURE:

A. Contractor acknowledgment of a complete and accurate bid.
B. Contractor submission of a fair and equitable bid.
C. Fair comparisons of bid.

IV. CONTRACTUAL REQUIREMENTS:

A. Do you understand you are a prime contractor? Yes

No

B. Can you meet the specified insurance requirements listed in the General Conditions Section for GL, WC, Auto, and Builders Risk (contract amount)? Yes

No

C. Are you a union company? Yes

No

D. Are you a SLBE or SELBE? Yes

No

If so in what county, city, state ________________________________________

E. Are any of your sub-tier contractors SLBE or SELBE? Yes

No

If so in what county, city, state ________________________________________

F. You are required to obtain a Performance, and a Labor and Material Bond for 100% of the Contract price
   1. Will you provide bonds as stipulated? Yes

No

2. Cost for bond: _________% Yes

No

3. Is your insurance company California licensed? Yes

No

J. Acknowledged Receipt of Addenda Number ______________________________

K. Acknowledged Receipt of Pre-Bid Clarification Questions Yes

No

L. Additive and deductive costs for alternate items
included in your proposal?  
Yes ☐  
No ☐  
M. Unit pricing and Allowances included in your proposal?  
Yes ☐  
No ☐  

Who in your office is in charge of submitting the required Insurance and Bonds

Name ________________________________________ Date _______________________

V. SCOPE OF WORK:

A. You have a complete understanding of your Scope of Work under the proposed Agreement and the Scope of Work (attached)  
Yes ☐  
No ☐  

B. You are required to have the following personnel:  

1. Safety Coordinator w/sole responsibility to coordinate, report and Enforce safety  
   Yes ☐  
   No ☐  
2. Scheduling personnel or independent scheduler  
   Yes ☐  
   No ☐  
3. Custodial cleanup services besides base- bid final cleaning  
   Yes ☐  
   No ☐  
4. Commissioning Coordinator (to be brought in at the start of Construction to the final completion  
   Yes ☐  
   No ☐  
5. Independent Testing and Balancing Contractor for HVAC  
   Yes ☐  
   No ☐  
6. Independent Contractor for Indoor Air Quality Testing  
   Yes ☐  
   No ☐  
7. Certified Arborist  
   Yes ☐  
   No ☐  

C. You have re-reviewed the documents and understand the Scope of the Work. Are there any items that need to be identified or require clarification?  
Yes ☐  
No ☐  

If yes, please identify item.  

1. ______________________________________________________________
2. ______________________________________________________________
3. ______________________________________________________________
4. ______________________________________________________________

Is (are) the cost(s) for items listed above included in your proposal items?  
Yes ☐  
No ☐  

C. Review bid alternatives (if applicable)  
Yes ☐  
No ☐  
D. Review unit pricing  
Yes ☐  
No ☐
E. Review allowances                        Yes □ No □

F. Are you offering any unsolicited alternates?                        Yes □ No □
   1. ______________________________________________________________
   2. ______________________________________________________________
   3. ______________________________________________________________

G. Are the plans and specifications clear and understandable to your satisfaction?                        Yes □ No □

END OF SECTION
SECTION 13701
SECURITY GENERAL REQUIREMENTS

PART 1 - GENERAL

1.1 RELATED REQUIREMENTS

A. Drawings and specific provisions of this Contract, including the General Conditions, apply to
the work specified in this section.

1.2 RELATED WORK NOT IN THIS SECTION

A. General and specific provisions of these Specifications apply to the work specified in this
Section, as well as:

1. Security Management System (Section 13721)
2. Security Wire And Cable (Section 13746)

1.3 TERMINOLOGY

A. The Peralta Community College District is referred to in the Specification Documents as the
District, and the bid respondent is referred to as the Contractor.

B. The term “Documents” refers to all contract specifications and drawings.

C. Unless otherwise called out in the documents by a specific discipline, the terms “Contractor”
and “Security Contractor” shall be considered synonymous.

D. The terms “provide” and “furnish and install” shall be considered synonymous.

1.4 NAME, LOCATION, AND ACCESS TO THE PROJECT

A. Project Locations:

1. Peralta Community College Campuses.

B. Access To The Project:

1. Contractor personnel and delivery personnel shall comply at all times with the regulations
of the responsible District personnel.

2. Permission for access to this facility may be revoked for all persons who violate District or
campus rules, parking restrictions, and directions of the responsible District personnel.

1.5 PERMITS AND INSPECTIONS

A. Obtain and pay for all permits and inspections required for the work.

B. Furnish materials and workmanship for this work in conformance with all applicable legal and
code requirements.
C. Perform all tests required herein, or as may be reasonably required to demonstrate conformance with the Specifications and a functioning operational security system or with the requirements of any legal authority having jurisdiction.

D. Obtain review from compliance officials responsible for enforcement of applicable codes and regulations to establish that the work complies with all requirements of reference codes indicated herein.

1.6 DESCRIPTION OF WORK

A. This contract is for providing and installing the ACAMS equipment for the Peralta Community College Access Control and Alarm Monitoring System (ACAMS) Upgrade Project.

B. This Division requires the furnishing and installation of all items specified herein, indicated on the Drawings or reasonably inferred as necessary for safe and proper operation; including every article, device or accessory (whether or not specifically called for by item) reasonably necessary to facilitate each system’s functionality as indicated by the design and the equipment specified.

C. Elements of the work include, but are not limited to, materials, labor, supervision, supplies, equipment, transportation, storage, utilities, and all required licenses.

D. All work performed under this Project shall be in accordance with the Specifications and are subject to the terms and conditions of the Contract.

1.7 LOCATIONS AND SPACE REQUIREMENTS

A. Contractor shall fully inform himself regarding peculiarities and limitations of spaces available for installation of work under this Division. Work specified shall be installed and arranged in a manner satisfactory to the District. The Contractor shall coordinate all locations and space requirements with the District, prior to installation.

B. Verify all spaces, dimensions for all devices, equipment, panels, etc., furnished under this Division, and equipment furnished under other Sections.

C. Obtain all necessary rough-in data and dimensions for all work to be performed under this Division.

D. Maintain headroom clearances and accessibility, as well as ceiling heights. Maintain clear space directly above ceilings unless specifically approved by the District.

E. Coordinate with the work of other on-site Contractors to prevent interference with this installation. Notify the District when interference is noted. Do not proceed with work until interference is resolved by the District in writing.

F. The Contractor shall verify that suitable environmental conditions exist in equipment locations, prior to mounting security equipment. If necessary, the Contractor shall notify the District if inadequate environmental conditions exist prior to installation of equipment.

1.8 SPECIFICATIONS

A. Prior to locating security devices, and all other items, obtain District’s approval as to exact installation location.
B. The District reserves the right to make any reasonable change in location of any outlet or device before installation, without additional cost to the District.

1.9 DISCREPANCIES

A. Clarification: Clarification shall be obtained before submitting a bid for the work under this Division as to discrepancies or omissions from the Specifications or questions as to the intent thereof through the use of a Request For Information directed to the District representative.

B. Detailed Instructions: Should it appear that the work hereby intended to be performed or any of the materials relative thereto, is not sufficiently detailed or explained in the Specifications, then the Contractor shall apply in writing to the District for such further explanations as may be necessary, allowing a reasonable time for the District to provide them. The Contractor shall conform to them as a part of the Contract without additional cost to the District.

C. Interpretations: Should any doubt or question arise respecting the true meaning of the Specifications, reference shall be made to the District, or its authorized representative and the Consultant, whose written decision shall be final and conclusive. No alleged statement by the District or the Consultant will be accepted as an excuse for inferior work.

D. Contractor Agreement: Consideration will not be granted for the misunderstanding of the amount of work to be performed. Tender of a bid conveys full Contractor agreement of the items and conditions specified, shown, scheduled, or required by the nature of the project.

1.10 QUALITY ASSURANCE

A. General

1. All materials, equipment, and parts comprising the units specified herein shall be new and unused, of current manufacturer and of highest grade.

2. Only products and applications listed in this Section may be used on the project.

1.11 CONTRACTOR QUALIFICATIONS

A. All system components shall be installed by a Contractor of established reputation and experience, who has completed similar installations, utilizing the systems specified for this project, for a period of at least three (3) years and who shall be able to refer to similar installations rendering satisfactory service.

B. Contractor who will be performing services for the District shall maintain all current licenses, Lenel Value Added Reseller (VAR) certification, and Master Level Technical certifications required to provide the specific work of this Contract.

C. Contractor shall be an authorized reseller/dealer and a factory certified installer of all products specified herein.

D. Contractor shall utilize installation and service technicians who are factory trained and Lenel Master Level certified and who are capable of installing and maintaining the system and providing reasonable service. Copies of technician’s Master Level Certifications for the technicians performing work on this project shall be submitted by the Contractor with the original bid. Failure to submit these documents may result in rejection of the Contractor’s Bid.
1.12 INSTALLATION

A. Systems shall be installed by competent tradesmen, skilled in this class of installation.

B. Contractor shall install systems in a manner that is consistent with the provisions and intent of the Specifications and the referenced Codes and Standards, and in accordance with equipment manufacturer’s written Specifications and instructions.

C. All installation workmanship shall be accomplished in a neat and professional manner, meeting industry standards. This shall include, but not be limited to, furnishing proper grounding of data lines and devices, providing neat wire and cable routing, identification of cables and/or conductors by point numbers, providing secure wire termination’s, splices, ease of access for maintenance and testing, plumb and level installation of devices, etc.

D. Furnish and install all materials, equipment, sensors, devices, relays, wiring and connectors, etc., to all building systems and equipment, as necessary for a complete system installation.

1.13 SUBMITTALS

A. In addition to the submittal requirements detailed in the Contract Documents, the Contactor shall submit product and system information as detailed below.

B. At a minimum, Equipment Submittals shall include the following:

1. The following shall be submitted for review and comment prior to the purchase and installation of equipment:
   a. Manufacturer’s Data: Specifications and installation instructions for each piece of equipment. Submit originals or laser printed white paper, no photo or facsimile copies.
   b. Submit product data for all products furnished (cut sheet shall include manufacturer, part number, accessories & options selected, color (if applicable), and a brief product description (if available).
   c. Submit product data sheets for all wire & cable (sheet shall include cable description, jacket rating, outside diameter of the overall wire or cable, manufacturer, and part number).
   d. Provide delivery dates for all equipment.

2. Functional block diagrams showing integrated relationship of all equipment, cabling, and termination points on one (1) drawing.

C. Materials installed or work performed without Equipment Submittal approval shall be done at the risk of the Contractor and the cost of removal of such material or work that is determined to be unsatisfactory for any reason shall be at the expense of this Contractor.

1.14 MATERIAL SUBSTITUTIONS

A. The equipment chosen for this project has been selected by the District and the Consultant to be included in this project based upon integration requirements throughout facilities and quality and performance of the product. Therefore, no substitutions will be accepted unless otherwise noted. Any substitutions must be submitted for consideration prior to the bid.
B. Any substitution requests must be submitted for approval. Substitutions requests must be equivalent to the specified product. The burden of proof of such shall rest with the Contractor submitting the substitution request. In the substitution request, the Contractor must show that the substituted article or material is equivalent to the one specified. The acceptance or rejection of any and all substitution requests reside solely with the District. Approved substitutions shall not relieve the Contractor of responsibilities for the proper execution of the work, or from any provisions of the specifications.

1.15 PROJECT SCHEDULING

A. The Contractor shall conform to the scheduling requirements of the overall project as defined and provided by and coordinated with the District.

1.16 STANDARDS AND CERTIFICATIONS

A. All work shall be in accordance with the latest edition of the Uniform Building Code (UBC), National Electric Code (NEC), California State Fire Marshal, and all other State and local codes and ordinances that may prevail.

1.17 WARRANTY

A. All equipment, materials, and workmanship shall be guaranteed for a period of twelve (12) months from the date of final system acceptance at no expense to the District. This warranty shall include all materials provided by the District as part of this contract.

1. Any defects due to faulty materials, methods of installation, or workmanship within this period shall be repaired or replaced under the work of this Division, within 24 hours of notification by the District, and at no expense to the District.

2. Within one (1) hour of being contacted by the District for a warranty repair, the Contractor shall provide response to the District indicating when on-site service response will be provided with the understanding that all on-site service response on warranty items shall be within a maximum of four (4) hours from the time of notification by the District, and shall be provided 24 hours a day, seven days a week, year-round, with holidays not excepted from service availability.

3. Warranty repairs shall only be made by technicians who are qualified and certified to repair those components.

4. It shall be understood that replacement parts or equipment, which require shipping/mailing to the Contractor, shall be shipped/mailed in the most expedient manner possible (i.e., overnight express mail) for next-day delivery and replacement.

5. No material substitutions shall be made which deviate from the original installation without prior written approval by the District.

1.18 POWER

A. 120VAC UPS power shall be provided by the District at all locations where power is required.
1.19 GROUNDING

A. In order to minimize problems resulting from improper grounding and to achieve maximum signal-to-noise ratios, the following grounding procedures shall be adhered to:

1. Facilities Ground: The facilities ground shall be utilized at each power location.

2. Secondary system grounding conductors shall be provided from all racks, ungrounded equipment, etc., as applicable, in each area to the primary facilities grounding point for that area.

3. All pair shields shall be grounded at one point only. Cables that originate from equipment in electrical rooms and serve field devices shall be grounded to the signal ground terminal in the electrical room.

1.20 SUPERVISION

A. Contractor shall have a factory-trained engineer available to assist and supervise any and all system installation personnel at all times that the Contractor has personnel on site working on the project.

B. The Contractor shall also guarantee that a Project Manager and a Project Engineer shall be available, at the District or the Consultant’s request, at any time during installation, up to, and including, final acceptance testing.

C. Contractor shall review the General Conditions for further Supervision Requirements.

1.21 REPLACEMENT

A. Promptly replace components that are damaged beyond satisfactory field repair before their acceptance, with undamaged, new components, at no additional cost to the District.

1.22 CLEANING AND ADJUSTING

A. The Contractor shall protect and, where necessary, cover all installed devices to protect from dust and debris during construction.

B. After all other general construction work has been substantially completed, clean devices, fixtures, panels, and any equipment, material, surface, whether a part of this scope of work or not, which has been soiled as a result of work by the Contractor. Remove all dust, dirt, grease, or other marks. Leave work in clean condition, subject to the final written acceptance, which will not be unreasonably withheld, by District, or its authorized representative.

1.23 OPERATOR TRAINING

A. Contractor shall conduct operation and maintenance training for up to six (6) personnel on the system hardware prior to system acceptance. Training shall include installation, service and maintenance of all specified hardware. Trainer shall review and use documentation, as specified.

B. Contractor shall provide a training outline for approval by the District two (2) weeks after notice to proceed. In addition to training materials, Contractor shall provide student workbooks for each trainee. Workbook format and content shall also require approval by the District prior to the start of training sessions. Additional training past completion of contract (final payment)
should be arranged between the District and the Contractor by separate agreement.

C. The database for the project shall be utilized during training to give the users a project specific example to learn from.

D. Assume a minimum of two training sessions, each a maximum of four hours in duration.

1.24 ACCEPTANCE TESTING AND COMMISSIONING

A. On-Site Acceptance Testing and Commissioning Service:

1. The Contractor shall perform on-site Acceptance Testing with witness by the District and the Consultant, providing all personnel and equipment necessary to perform these tests. Should the system be unacceptable for testing (i.e. erroneous programming, numerous devices malfunctions, mis-terminated and/or un-terminated devices) the Acceptance Testing will be canceled and rescheduled. Any costs incurred by the District and the Consultant, because of canceling and rescheduling the Acceptance Testing, including time and reimbursable expenses incurred as part of the re-testing process, shall be the responsibility of the Contractor.

2. Upon completion of acceptance testing, the Consultant shall generate a punch list of deficient items. The Contractor shall have ten (10) business days, from receipt of the punch list, to resolve all items included in the punch list.

3. Upon completion of punch list items the Contractor shall perform follow-up on-site acceptance tests with witness by the District. If there are deficiencies remaining after the follow-up testing that require further testing by the District then the costs incurred by the District, or its authorized representative for the additional follow-up tests, including time and reimbursable expenses, shall be the responsibility of the Contractor.

1.25 TESTING

A. Site Tests

1. The Contractor shall perform a 100% pretest of the system prior to final testing by the District and Consultant. The Contractor shall provide the District with a minimum of a 5-day notice prior to scheduling of final testing.

2. Contractor shall provide written results of pre-test including date of pre-test and name of technician performing pre-test.

B. Test Preparation

1. The Contractor shall prepare and furnish test forms listing each device with columns for pass, fail, comments, and date tested.

1.26 RECORD DOCUMENTS

A. Site Prints: The Contractor shall maintain a set of clearly marked black-line prints of the Construction Drawings, at the job site, which shall be used for recording the work details, final size, location, interrelation, and similar items of all work under this Division. This set of Construction Drawings shall be corrected daily as the work progresses and shall clearly indicate all changes to suit field conditions, changes made by "Field Order" or "Change Order," and accurate dimensions of all buried or concealed work. Precise locations of all concealed
work, locations of all concealed boxes, controls and devices and any deviations from the work shall be referenced by at least two (2) permanent structure points.

B. Upon completion of the work, the Contractor shall incorporate into CAD files (AutoCAD) all marks from the site prints and shall produce two (2) bond sets of Draft Record Drawings for use and verification during acceptance testing. The Draft Record Drawings shall utilize the latest Architectural background drawings and shall incorporate all modified drawings, or any other drawings which were developed by the contractor during the installation process. Any changes required to the Draft Record Drawings as a result of acceptance testing shall be redlined on these sets during the acceptance testing.

C. Upon completion of the acceptance testing, the Contractor shall incorporate into AutoCAD all changes made during acceptance testing and produce one (1) set of bond drawings for review and acceptance by the Consultant. Should the drawings be unacceptable for review (i.e. numerous errors mis-referenced and/or mislabeled devices etc.) the drawings will be rejected. Any costs incurred by the Consultant, as a result of the review process, shall be the responsibility of the Contractor. Upon the Consultant acceptance of the Record Drawings the Contractor shall produce one (1) set of clean Record Drawings on bond and one (1) set of Record Drawings burned to CD. The Record Drawings shall be clearly marked and signed on each sheet as follows:

CERTIFIED RECORD DRAWINGS

D. Operation and Maintenance Manuals: The following shall be submitted by Contractor for review and comment at the completion of the project:

1. General: Furnish a white, 3-ring binder with front cover and spine clear pockets for insertion of the manual name and project information. Manual shall be indexed with individual dividers (Avery LSK-5 or LSK-8).

2. Functional Design Manual: Includes a detailed explanation of the operation of the system.

3. Hardware Manual which includes:
   a. Pictorial parts list and part numbers.
   b. Pictorial and schematic electrical drawings of wiring systems, including devices, control panels, and instrumentation.
   c. Telephone numbers for the authorized parts and service distributors.
   d. Include all service bulletins.

4. Software Manual which includes:
   a. Use of system and applications software.
   b. Initialization, start-up, and shut down procedures.
   c. Alarm Reports

5. Operator's Manual which fully explains all procedures and instructions for the operation of the system and includes:
   a. Computer and peripherals
   b. System start-up and shut down procedures
   c. Use of system, command, and applications software.
   d. Recovery and restart procedures
   e. Graphic alarm presentation
   f. Use of report generator and generation of reports.
   g. Data entry operator commands
   h. Alarm messages and reprinting formats.
   i. System access requirements.

6. Maintenance Manual which includes:
   a. Instructions for routine maintenance listed for each component and a multi-
summary of all components’ routine maintenance requirements.

b. Detailed instructions for repair of the security system.

c. A summary of the software licenses, including license numbers, quantity of clients, summary of the software options provided, and database capabilities.

d. A summary of the TCP/IP address used and which system component they are associated with. Include the gateway address, subnet mask, DNS server, and host name information.

7. Test Results Manual, which includes the document results of all tests, required under this Specification, organized by System and Floor.

1.27 MAINTENANCE AGREEMENT

A. The Contractor shall be responsible for maintenance of all installed equipment (new and existing) during the one (1) year warranty period following system acceptance at no expense to the District. Maintenance of the system shall include an annual cleaning of all equipment and installation of any manufacturer issued software patches or upgrades on any components installed as part of this contract prior to expiration of the (1) year warranty. The Contractor shall not include in the base bid, any provisions for additional maintenance beyond the one (1) year warranty period.

PART 2 - PRODUCT

Not Used.

PART 3 - EXECUTION

Not Used.

END OF SECTION
SECTION 13721
SECURITY MANAGEMENT SYSTEM

PART 1 - GENERAL

1.1 RELATED REQUIREMENTS

A. Drawings and specific provisions of this Contract, including the General Conditions, apply to the work specified in this section.

1.2 RELATED WORK NOT IN THIS SECTION

A. General and specific provisions of these Specifications apply to the work specified in this Section, as well as:

1. Security General Requirements (Section 13701)
2. Security Wire And Cable (Section 13746)

1.3 DESCRIPTION OF WORK

A. The work of this contract is to provide, furnish, configure, program and install new Access Control and Alarm Monitoring System (ACAMS) equipment, configured for integration with an existing Lenel OnGuard Enterprise ACAMS in conjunction with the “Access Control and Alarm Monitoring System Upgrade Project” for the Peralta Community College District (District).

B. Contractor shall provide all labor, materials, equipment, services, etc., necessary to furnish and install complete and in place all security control devices including, but not limited to:

1. Unless otherwise noted, removal and disposal of existing security device controllers.
2. Installation, termination, and programming of new intelligent network controllers, card readers, door position switches (DPS), Request-To-Exit devices, tamper switches, power supplies and associated control equipment and communications cabling, which will operate, control and monitor critical access points.
3. Unless otherwise noted on the Construction Drawings, installation, termination and programming of new electronic lock hardware.
4. Installation and termination of cabling to provide ACAMS control of existing automatic door operators and door actuators. Additionally, provide all integration and termination of relays, door operators, door actuators, electric lock assemblies and power boosters as required to provide a fully functional system as described. Contractor shall coordinate all integration and termination of ACAMS relay cabling with the District.
5. Installation of new cabling and termination of new cabling to new security devices and existing electronic locking hardware, electronic locking hardware power boosters, transfer hinges and REX switches.
6. Performing end-to-end tests of existing cable pairs, identification and re-termination of...
existing cabling to new security devices.

7. Configuration and programming of all security devices, both in the field and within the District’s existing ACAMS.

8. Programming of cardholder access rights within the ACAMS.

C. Programming of the ACAMS server including, but not limited to the following:

1. All hardware devices installed as part of this project.

2. All access and user defined authorization levels as coordinated with the District.

3. Input of alarm condition and response messages as coordinated with the District.

4. Import and configuration of mapping displays for each floor with associated icon links which activate on alarm or event conditions.

D. Coordinate exact programming, display and naming convention requirements with the District prior to beginning work.

E. Exact locations for each device will require coordination with the District prior to installation.

F. Perform all tests required herein, or as reasonably required to demonstrate the system is in conformance with the Drawings and Specifications and that its intended operation meets the requirements of any legal authority having jurisdiction.

G. Elements of the work include, but are not limited to, materials, labor, supervision, supplies, equipment, transportation, storage, utilities, and all required licenses.

H. Deliver a complete and operating system as intended, shown, and specified.

I. Exact programming and configuration will require close coordination with the District prior to installation.

J. All nomenclature of all other integrated programming requirements shall be closely coordinated with the District.

K. These Specifications are not meant to be all-inclusive, and the Contractor is required to make adjustments accordingly. Included in the scope of work is all necessary software, hardware, equipment, cabling, connectors, goods and services, etc., whether specified here or not, such that said performance of work fulfills the intent of this Specification and renders this Project complete, functional and fully operational meeting the requirements of the District.

1.4 DESCRIPTION OF OPERATIONS

A. Work included: All labor, materials, appliances, tools, equipment, facilities, and services necessary for and incidental to performing all operations of this Section, complete, as shown on the Construction Drawings or specified herein.

B. The system is designed to receive a signal from a card reader, which is activated by an authorized card. Upon a valid authorization, an electronic opening device (i.e., electric lock) is activated to allow access. Should an attempt be made to enter this system with an unauthorized card, the electronic device shall not be activated, thus denying entry. This system is also
designed to provide for an override by the security system operator at a remote workstation to activate the electronic door device, thus allowing access for certain circumstances which are normally not programmed into the system. Each access or denial event shall be logged.

C. All access controlled doors equipped with electric locks, shall be configured so that when a card is presented at a card reader, access shall be granted only if the access code is valid, the I.D. number is found, and it is authorized at that location for that particular period. If all conditions are met, a signal shall be sent to the appropriate control hardware and the associated building DPS shall be shunted and the electric locking device shall be unlocked. Upon opening and closing the door on a valid card read, the electronic locking hardware shall re-lock and the DPS shall resume an armed state.

D. On specific card reader doors, the system shall be configured to allow a “double tap” access event (two valid card reads within a three second window from a card configured to permit double tap functionality) to toggle the associated lock between a lock and an unlocked state. Verify exact locations with the District.

E. The ACAMS shall be configured to provide activation and de-activation of automatic door operators and door actuators provided by the District. Relay integration shall be configured as detailed by the Construction Drawings to provide the following functionality:

1. Exterior door actuators will only be active upon a valid card read, or during a timed unlock of the associated door. Upon a valid card read, the associated doors will unlock allowing the doors to be opened manually or through use of the door actuator for ADA accessibility.

2. The interior door actuators will always be active to allow automated free egress.

3. The interior door actuators shall be wired thru a DPDT relay to allow simultaneous activation of the associated door operator and request to exit input on the ACAMS.

F. All security device events will be monitored and recorded by the ACAMS. Configuration and Programming of the ACAMS to patron event reporting information based on system user login assignments is required.

1.5 ACAMS HARDWARE AND SOFTWARE

A. The ACAMS server, operating system software and virus protection shall be considered existing for this project.

1.6 DEVICE HARDWARE REQUIREMENTS

A. Intelligent System Controller Modules (ISC):

1. Provide and install ISC modules at locations shown on the Construction Drawings.

B. Dual Reader Interface Modules (DRI):

1. Provide and install DRI modules at locations shown on the Construction Drawings.

C. Single Reader Interface Modules (SRI):

1. Provide and install SRI modules at locations shown on the Construction Drawings.

D. Input Control Modules (ICM):
1. Provide and install IC modules at locations shown on the Construction Drawings.

E. Output Control Modules (OCM):
   1. Provide and install OC modules at locations shown on the Construction Drawings.

F. Star Multiplexer Module (SM)
   1. Provide and install SM modules at location shown on the Construction Drawings.

G. Card Readers:
   1. Provide and install card readers at locations shown on the Construction Drawings.
   2. Card readers shall be powered by 12VDC directly from the DRI.

H. Request-to-Exit Devices (R):
   1. Provide and install REX (R) devices at locations shown on the Construction Drawings, to shunt the associated alarm contact when the system grants access at a controlled point or when valid egress is being made from a controlled point.

I. Request-to-Exit Devices (REX):
   1. Provide and install REX (R) devices at locations shown on the Construction Drawings, to shunt the associated alarm contact when the system grants access at a controlled point or when valid egress is being made from a controlled point.

J. Alarm Contacts/Tamper Switches:
   1. Provide and install magnetic alarm contacts at each monitored door at locations shown on the Construction Drawings, to detect an unauthorized intrusion into the facility. If a door is illegally opened, the contact shall send a signal to the CPU indicating an alarmed condition.
   2. These alarm contacts shall have the capability of being shunted via a REX device. When the system grants access at a controlled point, it shall shunt the DPS input for that controlled point until the specified shunt time has elapsed, or the door is opened and closed. These DPS shall also be capable of being shunted via the ACAMS client workstation.
   3. Tamper switches shall be provided on all security equipment enclosures in every electrical closet.

K. Electronic Lock Hardware:
   1. Electric Locks: Provide and install electronic locks at locations shown on the Construction Drawings.
   2. Electric Strikes: Provide and install electronic strikes at locations shown on the Construction Drawings.
   3. REX Devices: Unless otherwise noted on the Construction Drawings, provide termination of security system cabling to REX switches that are integral with the electric locking...
hardware at locations shown on the Construction Drawings.

4. Power Transfer Hinge: Unless otherwise noted on the Construction Drawings, Provide termination of security system cabling to power transfer hinges at locations shown on the Construction Drawings.

5. Power Boosters: Unless otherwise noted on the Construction Drawings, Provide termination of security system cabling to power boosters provided by the District at locations shown on the Construction Drawings.

6. Door Operators and Door Actuators: Unless otherwise noted on the Construction Drawings, Provide termination of security system cabling to door operators and door actuators provided by the District at locations shown on the Construction Drawings.

7. Electromagnetic Door Holders: Unless otherwise noted on the Construction Drawings, Provide termination of security system cabling to electromagnetic door holders and door actuators provided by the District at locations.

1.7 POWER SUPPLIES

A. Provide and install 12VDC and 24VDC power supplies for all security devices associated with this project including specified battery back-up at locations shown on the Construction Drawings.

1.8 BACKBOARD REQUIREMENTS

A. Provide and install plywood backboards at locations as shown on the Construction Drawings.

1.9 WIREWAY

A. Provide and install wireways at locations shown on the Construction Drawings.

1.10 ENCLOSURES

A. Provide and install enclosures at locations shown on the Construction Drawings.

B. Utilize existing security equipment controller enclosures as shown on the Construction Drawings.

C. Provide and install back panels for existing security equipment controller enclosures as needed. Field verify prior to installation.

1.11 ASSOCIATED EQUIPMENT

A. Relays: Individual cube relays shall be provided by the Contractor as incidental to the project.

B. Terminal Blocks: Terminal blocks shall be provided by the Contractor as incidental to the project.

PART 2 - PRODUCTS

2.1 MATERIALS AND EQUIPMENT

A. Unless otherwise noted on the Construction Drawings, all materials and equipment shall be
new, of the type, capacity, and quality specified and free from defects. Material shall bear the label of the manufacturer, or be listed by the Underwriters’ Laboratories unless of a type for which label or listing service is not provided.

B. Materials shall be of same brand or manufacturer throughout for each class of material or equipment, wherever possible.

2.2 ACAMS SOFTWARE

A. The ACAMS software is existing. Coordinate all programming and configuration requirements with the District prior to commencement of work.

2.3 DEVICE HARDWARE REQUIREMENTS

A. Intelligent System Controller (ISC)

1. Shall be Ethernet ready.

2. Shall utilize downstream communication modes of 2-wire RS-485, 2400-38400 bps, asynchronous, half-duplex.

3. Shall have two (2) unsupervised inputs, dedicated for tamper and UPS fault monitoring.

4. Shall have eight (8) unsupervised/supervised inputs, standard EOL: 1k/1k ohm.

5. Shall have four (4) Form-C, 5A @30 VDC, resistive relays.

6. Shall have two (2) Wiegand reader interfaces.

7. Primary power shall be 12 to 24 VDC + 10%, 550mA maximum (plus reader current).

8. Intelligent System Controller (ISC) shall be Lenel, Model LNL-2220.

B. Dual Reader Interface Module (DRI)

1. Shall have two (2) Wiegand reader interfaces.

2. Shall have eight (8) unsupervised/supervised inputs, standard EOL, 1k/1k ohm, 1% 1/4 watt.

3. Shall have two (2) unsupervised inputs, dedicated for cabinet tamper and UPS fault monitoring.

4. Shall have six (6) Form-C, 5A @ 28 VDC resistive relays.

5. Shall communicate via RS-485 two-wire, 9600 to 115,200 bps.

6. Primary power shall be 12 to 24 VDC + 10%, 550mA maximum (plus reader current).

7. Dual Reader Interface (DRI) shall be Lenel, Model LNL-1320.

C. Single Reader Interface Module (SRI)

1. Shall have one (1) Wiegand reader interfaces.
2. Shall have two (2) unsupervised/supervised inputs, standard EOL, 1k/1k ohm, 1% 1/4 watt.
3. Shall have one (1) unsupervised input, dedicated for cabinet tamper.
4. Shall have two (2) Form-C, 5A @ 28 VDC resistive relays.
5. Shall communicate via RS-485 two-wire, 9600 to 115,200 bps.
6. Primary power shall be 12 to 24 VDC + 10%, 150mA maximum (plus reader current).
7. Single Reader Interface Module (SRI) shall be Lenel, Model LNL-1300.

D. Input Control Module (ICM)
1. Shall have sixteen (16) unsupervised/supervised inputs. Standard EOL: 1k/1k ohm. 1%. ¼ watt.
2. Shall have two (2) outputs, Form-C, 5A @ 28 VDC resistive.
3. Shall have Two (2) unsupervised, dedicated for cabinet tamper and UPS fault monitoring.
4. Primary power shall be 12 to 24 VDC + 10%, 350mA maximum.
5. Input Control Module (ICM) shall be Lenel, Model LNL-1100.

E. Output Control Module (OCM)
1. Shall have sixteen (16) Form-C, 5A @ 28 VDC, resistive relays.
2. Shall have two (2) unsupervised, dedicated for cabinet tamper and UPS fault monitoring.
3. Primary power shall be 12 to 24 VDC + 10%, 1100mA maximum.
4. Output Control Module (OCM) shall be Lenel, Model LNL-1200.

F. Star Multiplexer Module (SM)
1. Shall have four (4) RS-485 Transmit/Receive Ports.
2. Shall have four (4) RS-485 Transmit/Receive or Receive Only Ports.
3. Primary power shall be 12 VDC, 15%. 250 Ma.
4. Star Multiplexer Module (SM) shall be Lenel, Model LNL-8000.

G. Card Readers – Type A (Wall Mount)
1. Shall be mounted as detailed on the Construction Drawings.
2. Shall be Wiegand output.
3. Shall be read when presented in any orientation or at any angle to the surface of the reader (maximum read range: 5.5”).
4. Shall incorporate a tri-state LED on the front of the reader, which shall be configured as follows:
   a. Illuminate steady red when the door is closed and secure.
   b. Illuminate green upon a valid card read, then switch to steady red once the door is opened or the unlock time expires, whichever occurs first.

5. Shall have an audio "beep" tone feature to indicate to the user that the card was read and an access decision was made.

6. Accidental or intentional transmission of radio frequency signals into the reader shall not compromise the system.

7. Shall function in the access control system's normal or anti-pass back mode without changes to the reader.

8. Damage or vandalism to the reader shall not damage any other part of the access control system.

9. Reader operating temperature ranges shall be -22°F to +150°F (-30°C to +65°C).

10. Shall be provided in standard black finish.

11. Shall operate on 12VDC supplied directly by the Dual Reader Interface module.

12. Card reader shall be HID Thinline II Reader, Model 5395.

H. Card Readers – Type B (Mullion Mount)

1. Shall be mounted as detailed on the Construction Drawings.

2. Shall be Wiegand output.

3. Shall be read when presented in any orientation or at any angle to the surface of the reader (maximum read range: 5.5").

4. Shall incorporate a tri-state LED on the front of the reader, which shall be configured as follows:
   a. Illuminate steady red when the door is closed and secure.
   b. Illuminate green upon a valid card read, then switch to steady red once the door is opened or the unlock time expires, whichever occurs first.

5. Shall have an audio "beep" tone feature to indicate to the user that the card was read and an access decision was made.

6. Accidental or intentional transmission of radio frequency signals into the reader shall not compromise the system.

7. Shall function in the access control system's normal or anti-pass back mode without changes to the reader.
8. Damage or vandalism to the reader shall not damage any other part of the access control system.

9. Reader operating temperature ranges shall be -22°F to +150°F (-30°C to +65°C).

10. Shall be provided in standard black finish.

11. Shall operate on 12VDC supplied directly by the Dual Reader Interface module.

12. Card reader shall be HID MiniProx Reader, Model 5365.

I. Alarm Contacts

1. Type A – Recess Mounted:
   a. Shall be single-pole, double throw (SPDT) unit.
   b. Shall provide dual circuit operation to provide operation suitable for a line supervision circuit.
   c. Switches shall be capable of initiating an alarm signal when the protected door is opened 1” on the latch side.
   d. Shall be installed in the door header and the associated magnet shall be installed in the door.
   e. Alarm contact shall be by Sentrol, Model 1076CW.

2. Type B – Surface Mounted
   a. Shall be single-pole, double throw (SPDT) unit.
   b. Shall provide dual circuit operation suitable for a line supervision circuit.
   c. Capable of initiating an alarm signal when the protected door is opened 2-1/2” on the latch side.
   d. Shall be surface mounted to the door frame and the associated magnet shall be surface mounted to the door.
   e. Shall be equipped with an armored cable jacket.
   f. Alarm contact shall be by GE, Model 2507AD. (with mounting kit where required).

3. Type C – Tamper
   a. Shall be single-pole, single throw (SPST) unit.
   b. Shall be capable of initiating an alarm signal when the protected door is opened 3/8”.
   c. Shall be installed inside enclosures requiring a tamper switch.
   d. Tamper shall be by Sentrol, Model 3025T.
J. Request-To-Exit Motion Sensor (R)
   1. Shall be powered by 12 or 24 VAC/DC.
   2. Shall have two (2) Form-C relay contacts.
   3. Request-To-Exit shall be by Thermacon, Model T-90 SPDT/POT.

K. Request-To-Exit Sensor (REX)
   1. Shall operate at 2 or 24 VAC/DC.
   2. Shall have two (2) Form C relay contacts.
   3. Shall have selectable relay latch times.
   4. Shall have sensor programmable features for fail-safe or fail-secure modes.
   5. Request-To-Exit sensor shall be by Bosch, Model DS 150i

L. Electronic Lock Hardware (Strikes)
   1. Electric Strikes: Provide and install electronic strikes at locations shown on the
      Construction Drawings.
   2. Shall be tamper resistant.
   3. Shall have static strength of 1500 lbs.
   4. Shall have dynamic strength of 70 ft. - lbs.
   5. Shall have endurance of 500,000 cycles.
   6. Shall be fail safe.
   7. Shall be 24VDC/VAC.
   8. REX Devices: Unless otherwise noted on the Construction Drawings, REX devices shall
      be integrated with new electric lock hardware. Contractor shall provide disassembly and
      re-assembly as required to provide final termination of ACAMS cabling to the REX
      devices of existing electronic lock hardware.
   9. Power Transfer Hinge: Unless otherwise noted on the Construction Drawings, Contractor
      shall provide disassembly and re-assembly as required to provide final termination of
      ACAMS cabling to the transfer hinges.
  10. Power Booster: Power booster shall be existing as provided by the District. Unless
      otherwise noted on the Construction Drawings, Contractor shall provide disassembly and
      re-assembly as required to provide final termination of ACAMS cabling to the power
      boosters.
  11. Door Operators and Door Actuators: Door operators and door actuators shall be existing
      as provided by the District. Unless otherwise noted on the Construction Drawings,
      Contractor shall provide disassembly and re-assembly as required to provide final
termination of ACAMS cabling to the door operators and door actuators.

12. Electronic lock hardware shall be by VON DUPRIN, Model 6210 FSE 24VDCxxxx or approved equal. Provide all associated lock accessories needed to render the strike fully functional. Confirm finish and handing on a door by door basis with the District prior to installation.

M. Electronic Lock Hardware (Panic Hardware)

1. Electric Locks: Provide and install electronic locks at locations shown on the Construction Drawings.

2. REX Devices: Unless otherwise noted on the Construction Drawings, REX devices shall be integrated with new electric lock hardware. Contractor shall provide disassembly and re-assembly as required to provide final termination of ACAMS cabling to the REX devices of existing electronic lock hardware.

3. Power Transfer Hinge: Unless otherwise noted on the Construction Drawings, Contractor shall provide disassembly and re-assembly as required to provide final termination of ACAMS cabling to the transfer hinges.

4. Power Booster: Power booster shall be existing as provided by the District. Unless otherwise noted on the Construction Drawings, Contractor shall provide disassembly and re-assembly as required to provide final termination of ACAMS cabling to the power boosters.

5. Door Operators and Door Actuators: Door operators and door actuators shall be existing as provided by the District. Unless otherwise noted on the Construction Drawings, Contractor shall provide disassembly and re-assembly as required to provide final termination of ACAMS cabling to the door operators and door actuators.

6. Electronic Lock hardware shall be Von Duprin, Model E9975xxx. Confirm finish, handing and handle style on a door by door basis with the District prior to installation.

N. Electronic Lock Hardware (Mortise Lock)

1. (Continued)

2.4 POWER SUPPLIES

A. TYPE A – Power Supply (Field Processors):

1. Shall be UL listed.

2. Shall provide 12VDC/24VDC at 6 Amp continuous current.

3. Shall be supplied in a metal enclosure.

4. Shall include two (2) eight (8) port power distribution boards.

5. Shall be equipped with a Type B alarm contact as specified in this Section.

6. Power supply shall be by Altronix, Model AL600ULX-PD16.
B. TYPE B – Power Supply (12 VDC Field Devices):
   1. Shall be UL listed.
   2. Shall provide 12/24VDC at 6 Amp continuous current.
   3. Shall be supplied in a metal enclosure.
   4. Shall include two (2) eight (8) port power distribution boards.
   5. Shall be equipped with a Type B alarm contact as specified in this Section.
   6. Power supply shall be by Altronix, Model AL600ULX-PD16.

C. TYPE C – Power Supply (24 VDC Field Devices):
   1. Shall be UL listed.
   2. Shall provide 24VDC at 10 Amp continuous current.
   3. Shall be supplied in a metal enclosure.
   4. Shall include two (2) eight (8) port power distribution boards.
   5. Shall be equipped with a Type C alarm contact as specified in this Section.
   6. Power supply shall be by Altronix, Model AL1024ULX-PD16.

D. TYPE D – Power Supply (Locks):
   1. Shall be UL listed.
   2. Shall provide 24VDC at 10 Amp continuous current.
   3. Shall be supplied in a metal enclosure.
   4. Shall include two (2) eight (8) port power distribution boards.
   5. Shall be equipped with a Type C alarm contact as specified in this Section.
   6. Power supply shall be by Altronix, Model AL1024ULX-PD16.

2.5 BACKBOARD REQUIREMENTS

A. Provide and install plywood backboards at locations as shown on the Construction Drawings.

B. The following backboard requirements must be met:
   1. Backboards shall be 3/4” thick, fire resistant plywood with two (2) coats of painted finish on both sides to match the color of the walls on which they are installed.
   2. Plywood shall be installed with “A” side out. Plywood shall additionally be masked as required to allow visual verification of grade stamping.
3. Mount backboard at +6” min. above floor, unless otherwise noted on the Construction Drawings.

2.6 WIREWAYS

A. Type – A:
1. Wireway shall be metal in construction with a standard powder coat finish.
2. Wireway shall be 4” x 4” x 72”.
3. Wireway shall be by Hoffman, Model F44T172GVP.

B. Type – B:
1. Wireway shall be metal in construction with a standard powder coat finish.
2. Wireway shall be 4” x 4” x 48”.
3. Wireway shall be by Hoffman, Model F44T148GVP.

2.7 ENCLOSURES

A. Large Type 1
1. Shall be of 14 gauge steel.
2. Shall have continuous hinge on door.
3. Shall have mounting holes on back of enclosure.
4. Shall be secured by lock cylinder.
5. Shall utilize back panel.
6. Shall be equipped with a Type C alarm contact as specified in this Section.
7. Enclosure shall be by Hoffman, Model A48N3609. Back panel shall be by Hoffman, Model A42P36. Lock cylinder shall be by Hoffman, Model AL12AR.

B. Medium Type 1
1. Shall be of 14 or 12 gauge steel.
2. Shall have doors with butt hinges.
3. Shall have mounting holes on back of enclosure.
4. Shall be secured by lock cylinder.
5. Shall utilize back panel.
6. Shall be equipped with a Type C alarm contact as specified in this Section.
7. Enclosure shall be by Hoffman, Model A16N20ALP. Back panel shall be by Hoffman, Model A16N20MP. Lock cylinder shall be by Hoffman, Model AL12AR.

C. Small Type 1
1. Shall be of 16 gauge steel.
2. Shall have doors with butt hinges.
3. Shall have mounting holes on back of enclosure.
4. Shall utilize back panel.
5. Enclosure shall be by Hoffman, Model A6N64. Back panel shall be by Hoffman, Model ASN6P.

D. Back Panels (For Existing Enclosures)
1. Provide and install back panels for existing enclosures as shown on the Construction Drawings. Field verify prior to installation, provide as needed.

2.8 ASSOCIATED EQUIPMENT

A. Relays
1. Individual cube relays shall be provided by the Contractor as incidental to the project.
2. Where required, relays shall be by Idec.

B. Terminal Blocks
1. Terminal blocks shall be provided by the Contractor as incidental to the project.
2. Where required, terminal blocks shall be by Phoenix.

2.9 ELECTRICAL REQUIREMENTS (120VAC)

A. Unless otherwise noted on the Construction Drawings, all 120VAC shall be considered existing at locations requiring installation of security equipment, power boosters and power supplies.

B. The Contractor shall check the adequacy of all power and wiring before making final connections and applying power to the equipment.

C. The Contractor shall be responsible for terminating existing 120VAC power to all power supplies, devices, and other security equipment as required. The Contractor shall provide conduit, wiring and connections from 120VAC junction boxes supplied by the District to each security component noted on the Construction Drawings. Should the Contractor not possess the necessary licenses to install and terminate 120VAC wiring, Contractor shall be responsible for hiring a subcontractor as required to complete this work.

D. Contractor shall not be responsible for conduit, wiring and connections associated with terminating 120VAC to power boosters and door operators supplied by the District.

PART 3 - EXECUTION
3.1 GENERAL

A. The Contractor shall have at least one Lenel Master Certified factory trained representative on-site during all programming and configuration activity.

B. Perform all work in accordance with acknowledged industry and professional standards and practices and the procedures specified herein.

C. A complete, operating system shall be provided. Include all devices specified including basic components and accessories, interconnecting wiring and other equipment and installation devices necessary for a complete system as specified.

3.2 SECURITY DOOR CONTROL AND MONITORING DEVICES

A. INSTALLATION

1. Install materials and equipment in accordance with manufacturer's recommendations, instructions, and industry standards.

2. Install and terminate devices straight, level and plumb to walls, doors, finished ceiling and/or finished floors, as applicable.

3. Coordinate the installation, termination and testing of all devices with the District.

4. Card readers shall be installed flush-mounted (unless otherwise noted), to new junction boxes. Contractor shall terminate all wiring and test card reader prior to installation.

5. Run all wiring from each card reader door to its respective wireway, DRI, power supply or security equipment enclosure with no splices or termination points in between, as designated on the Construction Drawings.

6. Install new end of line resistors (EOL), at the device to provide 4-state supervision monitoring of all installed devices.

7. Install, terminate and test all devices and EOL resistors such that desired conditions occur upon activation, which are within the manufacturer's performance specifications.

8. Adjust pattern and sensitivity of all devices to achieve desired coverage area, where applicable.

9. All relays, whether specified herein or not, shall be provided by the Contractor as incidentals to the project.

10. No splices shall be made except as required to terminate devices. All connections made at devices shall be soldered and encapsulated by clear heat shrink tubing. Wire nuts, bean connectors, barrel connectors, crimp connectors, etc. shall not be accepted.

B. PROGRAMMING

1. System programming shall only be performed by a Lenel Master Certified factory trained representative.

2. Coordinate all programming activities with the District prior to commencement of programming.
3. Programming shall include but not be limited to:
   a. All ACAMS devices existing and new.
   b. Access privileges, groups and assignments.
   c. Monitoring group and partition assignments of ACAMS devices on a global, per campus, per area, and per building basis.
   d. Any other programming activity that may be required to render the system 100% functional and intended, designed and shown.

C. TESTING

1. Terminate and test all alarm contacts such that alarm conditions occur upon door actuation, which are within the manufacturer's performance specifications.

2. Furnish all necessary instruments and equipment required for conducting tests. Test all wiring for shorts, open circuits or grounding.

3. When entire installation has been completed, test out circuits and demonstrate that operation of system is in accordance with the Construction Drawings.

END OF SECTION
SECTION 13746
SECURITY WIRE AND CABLE

PART 1 - GENERAL

1.1 RELATED REQUIREMENTS
A. Drawings and specific provisions of this Contract, including other Sections, apply to the work specified in this Section.

1.2 RELATED WORK NOT IN THIS SECTION
A. General and specific provisions of these Specifications apply to the work specified in this Section, as well as:
   1. Security General Requirements (Section 13701)
   2. Security Management System (Section 13721)

1.3 DESCRIPTION OF WORK
A. All labor, materials, appliances, tools, equipment, facilities, transportation, and services necessary for, or incidental to, performing all operations of the work of this Section, complete, as shown on the Construction Documents or specified herein. Work includes, but is not limited to, the following:
   1. Furnish and install all data, signal and security power cabling as required on the Construction Documents.
   2. Perform end-to-end tests of cable pairs, and verify assignments and terminations. Provide documentation of testing and submit to the Owner and Security Consultant for approval and verification.
   3. The entire system shall be supported by engineering documentation in accordance with the provisions of these Specifications, specifically including:
      a. Wiring diagrams showing all devices, terminations, and interconnections.
      b. Connection diagrams showing interfaces between the devices, panels, and system head-ends.
      c. Cable assignments and terminations, showing all pair assignments and termination locations.

1.4 REGULATORY REQUIREMENTS
A. Comply with the California Electric Code (CEC) and state codes and ordinances.
B. Where required, materials shall be listed by Underwriter’s Laboratories (U.L.) and shall bear the U.L. Inspection Label.
C. Materials shall meet with approval of the Division of Industrial Safety, State of California and all governing bodies having jurisdiction.
D. Where required, the Contractor shall use plenum rated cabling and support devices which conforms to the CEC.

1.5 PRODUCT HANDLING
A. Deliver materials to job site in original, unbroken packages, properly tagged with U.L. label, size, type, and manufacturer indicated.
PART 2 – PRODUCTS

2.1 MATERIALS AND EQUIPMENT

A. Unless otherwise noted, all materials and equipment shall be new, of the type, capacity, and quality specified and free from defects. Material shall bear the label of, and be listed by, the Underwriters’ Laboratories unless of a type for which label or listing service is not provided.

B. Wire and Cable

1. Security Signal Cabling – Type A:
   a. All security signal cabling shall be West Penn Model 221, 22 AWG, 2 conductors, twisted, non-shielded, or equal.

2. Security Power (12/24 VAC/VDC) Cabling – Type B:
   a. Unless otherwise specified, all 24 VAC/VDC security power cabling shall be West Penn Model 224, 18 AWG, 2 conductors, stranded, non-shielded, or equal.

3. Security Reader Cabling – Type C:
   a. Unless otherwise specified, all security reader cabling shall be West Penn Model 3270, 22 AWG, 6 conductors, stranded, shielded, or equal.

4. Communication Cabling – Type D:
   a. All security signal cabling shall be West Penn Model 291, 22 AWG, 2 conductors, twisted, shielded, or equal.

2.2 CABLE LABELING

A. Labels shall be a self-laminating vinyl.

B. Labels shall have a white background for printing and a clear tab to protect the printed text.

C. Labels shall be a minimum of 1" wide and 1-1/4" long, the printed area shall be no less than ½” high.

D. Generate labels using a handheld Brady I.D. Pro-plus labeler Model ID PRO-PLUS, or equal.

E. Labels shall be by Brady, Model number WML-311-292, or equal.

PART 3 - EXECUTION

3.1 INSTALLATION

A. Contractor shall be responsible for delivery, storage, protection, and placing of all equipment and materials.

B. Contractor shall install materials and equipment in accordance with manufacturer's recommendations, instructions, and industry standards.

C. All cables shall be connected to terminal strips/blocks or to equipment via suitable factory-furnished or locally furnished connectors. Cable to rack-mounted equipment shall be long enough to allow complete removal of equipment, even if rear access is totally restricted.

D. All intra-rack wiring shall be neatly strapped, dressed, and supported. Terminal blocks,
boards, strips, or connectors shall be supplied for all cables that enter or leave racks, enclosures or equipment modules. Cables shall be grouped according to signals carried.

E. NEC approved hangers and strapping devices shall be utilized for installation of wire and cable in ceiling.

3.2 INSTALLATION OF CONDUCTORS

A. Conductors shall be continuous between outlets or junction boxes and no splices shall be accepted.

B. For wire training and clamping in cabinets and enclosures, use nylon cable ties, bundling no more than four (8) conductors per bundle to facilitate manual tracing of conductors.

C. Open cable runs shall be supported independently. Provide 12 gauge ceiling wires with “Caddy” type clips and/or bridle rings as required (10’ maximum spacing).

D. Use stranded #14 AWG conductors for power circuits.

E. Bundle and lace conductors neatly in cable tray/racks, panels, cabinets, and equipment.

F. The Contractor for properly securing hanging fixtures, equipment, and outlets shall provide mounting facilities. Provide sleeves, inserts, expansion bolts, and all components required.

G. No splices shall be made except as required to terminate devices. All connections made at devices shall be soldered and encapsulated by clear heat shrink tubing. Wire nuts, bean connectors, barrel connectors, crimp connectors, etc. shall not be accepted.

3.3 LABELING

A. Cable labeling shall be keyed to the Drawings, as approved by the Owner, such that at each cable end, origination and destination can be quickly and clearly ascertained. Spare cables shall be so identified.

B. Label text shall be printed utilizing the “SMALL” text size setting.

C. Label text shall be printed on three lines utilizing the “WIRE” setting.

D. Label shall be affixed to cable jacket no more than 1” from where jacket is stripped back to allow ease of cable identification.

E. Label shall be affixed to cable jacket by adhering the white printed portion of the label directly to the jacketing and then wrapping the clear portion of the label around and over the white printed portion to protect the printed text of the label.

F. Label shall be positioned so that it can be easily read with out needing to adjust or reposition label or surrounding cabling.

3.4 FIELD QUALITY CONTROL

A. Tests:

1. Furnish all necessary instruments and equipment required for conducting tests. Test all wiring for shorts, open circuits or grounding.

2. Immediately correct any defective work.

3. When entire installation has been completed, test out circuits and demonstrate that operation of system is in accordance with the Construction Documents.

3.5 ADJUSTING AND CLEANING
A. Clean exposed parts of all equipment and interior of panels and cabinets of dirt, cement and plaster and other materials.

B. Replace or refinish scratched or damaged materials.
