DISTRICT-WIDE SIGNAGE, PHASE II

PROJECT NO. 2334, BID NO. 13-14/16

Peralta Community College District

333 East 8th Street, Oakland, CA 94606

May 9, 2014

ADDENDUM No. 2

This addendum supersedes items of the original contract documents wherein it is inconsistent with it. All other conditions remain unchanged. The following changes, modifications, corrections, additions or clarifications shall apply to the contract documents and shall be made a part of and subject to all of the requirements thereof as if originally specified or shown. It is the responsibility of the bidder to review the list of attachments to ensure that the addendum is full and complete. This Addendum modifies the original Bid Documents for the above Bid.

Acknowledge receipt of this addendum in the space provided on the BID FORM. Failure to do so may subject Bidder to disqualification.

1. The sections of the sign surrounding the EMC display are called out as “Sign Cladding per MFR., Typ.” Are material specifications available for this section of the sign and are any of these sections backlit?

   Answer: These sections are not back lit. The intent is for these sections to be clear glass or acrylic panel (with the exception of the panel behind the College name, which is integral color). Method of attachment to be determined by the sign fabricator.

2. The rendering of the signs for each specific location show logos and lettering on the sections of the sign surrounding the EMC display. Are these to be part of the bid and if so, can we get specific details on them?

   Answer: The full height panel closest to the right end of the video board is intended to be an integral color acrylic with the name of the College applied to the face in metal lettering. The panel to the right of that is intended to show the College logo also rendered in metal and applied to the face of that panel. Artwork for the College name and logo will be provided by the District to the successful bidder.
