19. Consider Approval of Amendment No. 1 to Independent Contract with Catalyst Consulting Group for Services Related to Design of the Access Control and Alarm Monitoring System (ACAMS)  

Presenter: Vice Chancellor Ikharo

Approval is requested for Amendment No. 1, in the amount of $17,360, to Independent Contract #05717 with Catalyst Consulting Group (Catalyst) for the preparation of bid documents to convert the current Access Control and Alarm Monitoring System (ACAMS) to the Lenel system at Laney College.  

Funding Source: District Maintenance General Funds.

On April 30, 2010 the District entered into an independent contract (ICC #17929 in the amount of $25,000) with Catalyst to assist the District in choosing an Access Control and Alarm Monitoring System (ACAMS) to replace the problematic Johnson Controls, Inc. (JCI) system with a non-proprietary, improved system which utilizes the District’s picture ID cards. Catalyst was selected through an informal Request for Proposals process whereby District staff solicited quotes from three qualified firms. Upon
evaluation of the quotes, it was determined that Catalyst was the most qualified firm with confirmed references for similar work from other local community colleges. Under Phase 1A of this ICC, Catalyst developed a system comparison matrix of the various non-proprietary systems. Upon review of this matrix, the District selected the open-access Lenel system. Phase 1B of this ICC resulted in initial design development survey work identifying existing JCI hardware which might be reused.

On July 29, 2010, the District entered into a contract (ICC #13184 in the amount of $75,750) with Catalyst to integrate the results of the earlier design development survey into generic construction documents to develop the existing, but nonfunctioning, JCI hardware into a fully-functioning ACAMS utilizing the Lenel system. The resulting documents covered District-wide architecture including configuration of the master server but did not provide specific construction details for each campus.

At the October 12, 2010 Board meeting, the Board authorized Catalyst to develop the District ACAMS standard (at a fee of $8,350). This fee has produced the new standard which will be utilized on the Merritt College Science and Allied Health Building and all future new and renovated buildings. Not only will security be enhanced, but the open-access Lenel system will save the District significant lifetime funds over the previous proprietary system.

At the December 7, 2010 Board meeting, the Board approved a contract in the amount of $31,500 for Catalyst to develop the ACAMS design and bid documents for the smart classrooms. This system has now been implemented in the smart classrooms District-wide.

Earlier this fiscal year on December 21, 2011, Catalyst was awarded a contract (ICC #05717 in the amount of $16,140) to provide bid documents based on their earlier survey to convert existing JCI devices at Berkeley City College and the District Administrative Center (DAC) to the Lenel system. It was planned to make a phased conversion to the Lenel system, beginning with BCC and the DAC. Recent security breaches at Laney necessitate that the conversion schedule of Laney’s system to Lenel be expedited. Such a proposal was requested from Catalyst alone, due to their familiarity with the project based on their previous work. This proposal was to incorporate Laney’s such devices (which quantity-wise exceed those at BCC and the DAC) into the BCC/DAC effort. Their proposal is for $17,360 and, when incorporated into the initial $16,140 amount for bid documents, exceeds the $25,000 threshold for non-Measure A projects, requiring Board approval. All Board approved contracts are subject to final negotiation and execution by the Chancellor. The Chancellor recommends approval.
