He has passed his six month interim in his position, and looks forward to implementing the Board’s vision at the Foundation. He thanked everyone who’s already slated to support the upcoming golf tournament.

He shared that the classified staff are thankful for our good accreditation rating and their jobs. He asked that any substandard work be addressed, and he thanked General Services for following through on their projects.

Speaker Thompson shared that she’ll soon be leaving the area. Her journey started at Peralta 15 years ago, and she’s since fed thousands of people on our campuses. She worked on the honoring our own program to honor women at Peralta. She thanked the Board all of their support.

Public speakers from the Berkeley City College tobacco-less club shared their survey results and some student comments. They are grateful for the Districtwide signage. They offered some suggestions of locations for future signage. They have a new grant from the County. 91 people were surveyed.

The public was thanked for our added funding from the parcel tax measure and Measure B support. We will have a comprehensive visit in spring 2015, which will include a self-study for each college.

President Ambriz-Galaviz reported that the City of Oakland Mayor has championed a new partnership with our police department, and the City of Oakland cadet program for student internships. They want to grow their own, and we anticipate a completed MOU in the fall. They are interested in a police academy with instructional courses. Trustee Guillen is happy to hear that this is proceeding, and he hopes to see more officer graduates from Oakland residents.

4. **Board of Trustees’ Reports**

At this time, the Board of Trustees will report on matters related to attendance at conferences, professional affiliations, and community involvement directly related to their functions as Board members.
Trustee Brown reported that she and Trustee Handy an AACCC student success program in Sacramento. They are working with Assemblemember Rob Bonta’s office on adult education legislation.

Student Trustee Clegg announced the associated student training on August 6 – 9, and invited the Trustees to attend at the Bistro, Laney College 9 am – 5 pm. This will help to train student leaders to serve on the student counsel. Classified staff will be leading many of their session. She will volunteer at the Foundation golf tournament. She announced that the international student program will host a trip to Yosemite.

Trustee Handy reported on the AACCC conference to Sacramento. She invited the public to support the Foundation golf tournament on Monday.

Trustee Riley had lunch with the PRO retired employee group. They also offer scholarships yearly for each college. He and Trustee Guillen attended NALEO conference. The importance of students speaking dual languages was highlighted at the conference. Much federal and state private education funding are often not tapped into by students.

Trustee Guillen shared that one reason our students don’t enroll in the police academy is because they don’t have the required credit scores, and that good credit score impact future hiring opportunities. He enjoyed a NALEO report from Karen Avilla on Federal issues on tax-exempt bonds and the current fiscal climate. He learned about early learning child development, which has a 14-1 return on investment with quality early learning and pre-school, and this can help to close the achievement gap by 50%. He’d like to learn more about what we do at Merritt College in this area.

Student Trustee Li met with a business leader from Laney College’s round table.

Trustee Gulassa emphasized the great success of the accreditation process at Peralta, and thanked everyone involved. He offered thanks for former Chancellor Wise Allen for his work on the parcel tax, and thanked VC Gerhard and his department for their very hard work. Dr. Ortiz brought this all together successfully, overseeing the process, and allowed the Board to review all of the documents prior to approval. He thanked the Board for their hard work on policy review, and thanked the administration for all of the administrative procedures now in place. He thanked the Chancellor for his year of service, and congratulated him on a rigorous evaluation process and successful outcome. He’s been given a very strong evaluation, and the Board supports him in all that he’s done. President Gulassa was thanked for his leadership bringing the Board through this process.

The Board thanked Roxanne Epstein for her service to the District, and wished her well as she leaves her position.

STUDY SESSION (7:30 P.M.)

6. Study Session on Contracting and Purchasing

The Board will conduct a study session on contracting and purchasing matters. (This item was later removed from the agenda under approval of the agenda.)

PRESENTATION (8:00 P.M.)

7. No-Smoking Enforcement Presentation

Presenters: Vice Chancellor Ikharo and Lt. Craft (10 minutes)

The presenters will review the enforcement of Administrative Procedure 3570 on Smoking.

Trustee Handy suggested that there be more signs indicating the permitted areas for people to smoke, and that people should be escorted to areas that are for smoking. She’s glad that we’re taking this issue seriously.

Trustee Gonzalez Yuen thanked General Counsel Nguyen for championing this issue into the education code and our lobbyist who made this legislation possible. Verbal warnings are given out periodically throughout the campuses. He’s seen a lot of smoking and a lot of cigarette butts on our campuses. Tickets are now being developed. He’s frustrated that we’re not moving faster on this issue. He feels that smoking will stop once tickets are written. He’d like to see a report in the fall to see if our policy is being enforced, and he asked how this policy will be enforced on weekends and at BCC.

Vice Chancellor Ikharo shared that the implementation process proceeded right away. A survey was done among stakeholder about where signs would be installed, an architect hired to design signs, followed by bids for the signage, and the sign installation. Warnings have been given. The ticket has been developed and approved, and will given if there’s a repeat offender. BCC has security on weekends and during the week. Education is key to this process, with added information posted on our website. Trustee Riley asked the Chancellor to determine if more data is required, and he appreciates that education is emphasized first prior to citation. Electronic signature vapor does not apply to our policy. State Senator Corbett has a bill to include in this future tobacco use legislation.

8. Environmental Sustainability Presentation

Presenters: Vice Chancellor Ikharo and Charles Neal, Environmental Sustainability Manager (15 minutes)

Vice Chancellor Ikharo and Charles Neal (Energy and Environmental Sustainability Manager), will give a presentation on the District-wide Sustainability Report.
Prop 39 hopes to receive over $900,000/year for 5 years. Plans are being made to decide the plans to use such funds.

Trustee Brown asked about our irrigation system tie to the national weather service, and about our LEED certification. We have LEED technology guidelines and a comprehensive plan for existing building renovations. It costs funds to acquire LEED certification, and it needs to be maintained ongoing. Each guest introduced himself to the Board. Trustee Riley asked about the efficiency of solar panels, and if there are plans for more in the future. Energy reduction is a goal for the future, with projects planned for COA. Trustee Guillen feels it’s a goal to engage our community partners with a PLA outcome to engage our student workforce. He’s happy to see how Emerald Cities helps to expedite this process. He’d like a project identified where students can participate in community workforce development needs, especially with Prop 39 earmarked funds, possibly using bond dollars for up front pay then reimbursing the fund. He thinks we can do better with our energy needs. Students have been hired in projects, such as the Laney College solar panel. A side letter between the PLA and the District was needed to use student labor.

Trustee Gonzalez Yuen asked training programs, and what it might look like in the future working with Emerald Cities. Speaker Freeman shared that there is a pilot internship project with the City of Oakland and the East Bay Regional Park District. Trustee Withrow also expressed concern that we pursue prudent investments, as our primary purpose is education. He doesn’t feel that a 44 year payback on solar panel installations is prudent, and wants to invest tax dollars on specific goals. Trustee Handy shared that the Board voted on the solar panels knowing the return, and that the Board thought it was worth the investment at the time.

CONSENT CALENDAR (8:25 P.M.)

All matters listed under the Consent Calendar are considered by the Board of Trustees to be routine or sufficiently supported by back-up information as to not require additional discussion. Consent Calendar items will be enacted by one motion. There will be no separate discussion on these items prior to the time the Board votes on them, unless a Board member requests that a specific item be removed from the Consent Calendar for action and a separate vote. Public comment on Consent Calendar items from anyone completing a card will be heard prior to the Board’s vote on the Consent Calendar. All Board approved contracts are subject to final negotiation and execution by the Chancellor.

MOTION Trustee Guillen, second Trustee Riley PASSED

21. **Consider Approval of Budget Transfer Report**  
**Presenter:** Vice Chancellor Gerhard

Consider approval of budget transfer report covering the period from June 8, 2013 through June 28, 2013. California Code of Regulations Section 58307 limits the District’s expenditures to the amount appropriated for each major expenditure classification as approved by the Board of Trustees through the adoption of the District’s annual budget or as amended by subsequent budget transfers or revisions. Due to this statutory control language, budget transfers that move budget authority between major object codes or classifications must be approved by the Board of Trustees. The budget transfers presented are requests originating from the Colleges’ or District’s departments during the ordinary course of operations and do not significantly alter the final budget that was approved by the Board of Trustees on September 11, 2012. The Chancellor recommends approval.

Included in this resolution, the Board appointed five members to serve on the Retirement Board. Resolution 13/14-12 reappoints the original five members and establishes and alternate member. The members include Mr. Bill Withrow, Mr. Cy Gulassa, Dr. William “Bill” Riley, Ms. Meredith Brown (alternate), Ms. Trudy Largent, and Mr. Ronald Gerhard. **Funding Source: Not Applicable.** The Chancellor recommends approval.
MOTION to approve agenda Items 23 and 24 Trustee Gonzalez Yuen, second Trustee Riley. PASSED

Trustee Gonzalez Yuen is pleased to see us move forward with these items that have historically plagued the District. He asked about the implementation issues of this project. He feels the Board has been promised this in the past, and asked how the Board will be kept apprised. The Board will kept apprised of this progress through regular Board updates. We have a great team of staff led by Associate Vice Chancellor Madlock, and it will be closely monitored.

The communication plan includes regular updates to the Chancellor, and monthly updates to the Board. Financial aid has an academic year, starting in January. Data should be loaded in February or March, with parallel systems operating as a failsafe measure. The Chancellor will provide timely updates. Trustee Handy asked about hiring outside technical support to run the system for $700,000. It will be maintained by internal staff, and the process was explained. The vendor needed CCLC reporting experience, and experience in a multi-college district.

Trustee Brown asked what portion is for implementation. There is no license fee, since we own the module. The process and scope of services were explained. Staffing of 4-5 consultants is needed. Trustee Gonzalez Yuen feels that a reference back to the planning document timeframe and budget would be helpful, on page 56 of the IT strategic plan, to provide comfort to the Board. He suggested that specific pages be referenced in the future. Trustee Handy asked why we can’t use previously used fit-gap data. It is relevant and is used, and will be included in the process. However, some is no longer relevant. Trustee Gonzalez Yuen feels we should revisit the Higher One system to ensure that it’s the best, least expensive vendor for our students.

23. Consider Approval of a Contract with Highstreet IT Solutions Presenter: Vice Chancellor Gerhard

Consider approval of a contract with Highstreet IT Solutions to implement the District’s PeopleSoft Financial Aid System and provide technical support during implementation, in the amount of $696,640. Project 3.7 of the District’s Information Technology Strategy, Student Financial Aid System, calls for the implementation of the PeopleSoft Financial Aid module to increase efficiency of operations and reduce operating costs. A formal Request for Proposals (RFP 12-13/18) was released seeking assistance for the implementation of the Student Financial Aid System. Five firms attended the pre-proposal meeting and three responded to the RFP. A panel was convened to evaluate the proposals based on: vendors’ submitted responses to bidder qualifications/experience; company and project team qualifications/approach; ability to meet the general, functional and technical system requirements; and costs. After detailed analysis and review, Highstreet IT Solutions was the highest-ranking responsive and responsible vendor. The average scores are summarized below:
The current Student Financial Aid System (SAFE) is a mainframe product running on our existing legacy mainframe. Peralta is the last remaining client for this 3rd party mainframe system by EMAS Pro and all annual update costs now fall solely on Peralta, rapidly escalating our cost. The prospects for EMAS Pro maintaining this system over the long term (at a reasonable cost) are unlikely. Additionally, the hardware on which we run the system is well past its lifespan and programming support must come from Peralta retirees whose willingness and ability to continue in this role are uncertain.

Peralta should implement the PeopleSoft Student Financial Aid module because we already own it. There are design problems with the delivered module that we will need to engage PeopleSoft to overcome. We were assured by PeopleSoft that this can be done. A formal Request for Proposal (RFP 12-13/18) was conducted for the Financial Aid Student System. Highstreet IT Solutions was the bidder that best met the evaluation criteria and had the highest average score. After further review of all proposals, the three companies who responded to the bid were invited to participate in the demonstration phase of the bid. Of the three bidders, Highstreet IT Solutions and ERP Analysts, Inc. met the criteria as established in their bid response, demonstration, timeline and costs, with Highstreet IT Solutions being the only one who presented a timeline/schedule for the whole project. However, CIBER did not include a total price for the project, instead they used the sample stated on the RFP. Whereby, Highstreet IT Solutions was the only responsive bidder whose submittal, based on product and costs, best serves the interest of the District. Mac Slingerlend is the President/CEO of Highstreet IT Solutions.

**Funding Source: Measure E.** All Board approved contracts are subject to final negotiation and execution by the Chancellor. The Chancellor recommends approval.

24. **Consider Approval of Contract with Hicks Consulting Group**  
**Presenter: Vice Chancellor Gerhard**

Project 3.7 of the District's Information Technology Strategy, Student Financial Aid System, calls for the implementation of the PeopleSoft Financial Aid module. A vendor has been selected to start working on the implementation of this module, but in the meantime Peralta still needs to maintain the current SAFE Financial Aid System in order to disburse financial aid to students. The District has contracted with Hicks Consulting Group since to 2005 to support the legacy SAFE Financial Aid System. Hicks was retained, at that time, because existing staff did not have the programming knowledge necessary to keep the SAFE system functioning. It is expected that at the conclusion of the PeopleSoft Financial Aid module implementation project (Spring 2014) Hick's
services will be no longer necessary. This contract with Hicks Consulting Group will ensure maintenance to our SAFE Financial Aid System during the implementation of the PeopleSoft Financial Aid module in order to streamline verification of eligibility determination and issue financial aid checks. The Chancellor recommends approval.

Trustee Guillen asked about the vendor’s cost which is 20% lower than other firms. He’s concerned, and he wants to ensure that they are paying their employees appropriately. They working on phase 2 for the Laney Tower, which included a reasonable change order. They are paying the correct wage, and we are confident that they will perform.

Trustee Guillen abstained

27. Consider Approval of One (1) Bond Measure Budget Transfer and Appropriation (No. 48) **Presenter: Vice Chancellor Ikharo**

Approval is requested for one (1) bond measure budget transfer and appropriation (Number 48). The Administration will obtain approval from the College President, Vice Chancellor of General Services, Vice Chancellor of Finance & Administration and the Chancellor for this budget transfer and appropriation. With the intent of full disclosure, this budget transfer is now presented to the Board of Trustees for approval. On June 23, 2009, the Board of Trustees approved the Bond Measure (A and E) Spending Plan, which included budget appropriations, cash flow projects and budget transfer procedures. The Measure A budget included all current and future projects totaling the $390 million bond amount. At that time, the Board of Trustees also approved the process for future budget transfers from one project to another, which included District and College approvals and subsequent approval by the Board of Trustees. Since that time, project scopes have been refined, and some net projects have been created.

In accordance with the Board approved Bond Measure Spending Plan, a budget transfer form will be completed for the budget transaction. The transaction indicates the current budget, revised or new budget and the transfer amount for both the budget that is being increased (credit) and the budget that is being decreased (debit).

Budget Transfer No. 48 of $2,622,740 project budget is to accommodate the entire project costs for the District-wide Track and Field Replacement Project (also known as the District-Wide Athletic Fields Renovation) for Laney College, Merritt College, and College of Alameda. The $2,622,740 estimated project budget will cover soft costs and the following construction project phases: programming, schematic design, design
development, construction documents, bidding, construction, and occupancy. Soft costs consist of architectural design, Department of State Architect (DSA) inspection services, DSA review and plan check, advertising and contingency allowance for unanticipated items.

Originally, this project budget was approved under Measure E funds. Instead, the Chancellor recommended for the project budget to come from Measure A bond funds. On April 9, 2013, the Board of Trustees approved for Gould Evans to provide architectural design services for the project, in the amount not-to-exceed $100,000.

34. Consider Approval to Enter into an Agreement with Mondo USA, Inc. (Mondo) to Mitigate the Deterioration of District-wide Tracks at Laney College, College of Alameda and Merritt College

Presenter: Vice Chancellor Ikharo

Approval is requested to enter into an agreement with Mondo USA, Inc. to mitigate the deterioration of district-wide tracks at Laney College, College of Alameda and Merritt College, in the amount not-to-exceed $1,400,000. This agreement is an exception to competitive bidding that is allowable pursuant to *Shore v. Central Contra Costa Sanitary District* (1962) 208 Cal.App.2d 465 and *Graydon v. Pasadena Development Agency* (1980) 104 Cal.App.3d 631.

The District and Mondo entered into mediation, since all three tracks in the District suffered a production defect because Mondo used a red dye (a non-Mondo product), which when mixed with the Mondo surface material created a chemical reaction that was deleterious to the tracks. This reaction caused the untimely deterioration of all track surfaces. The premature deterioration consisting of brittleness, dryness, and substantial chipping of the surface layers occurred within the Mondo five-year warranty period. Additionally the defect affected the college’s track and training program and caused a complete alteration of the college’s training program.

Peralta and Mondo mediated the dispute and reached the following agreement effective June 19, 2013, subject to the approval of the Chancellor and Board of Trustees. Under the Settlement Agreement and Mutual General Release, Mondo’s scope of work shall include but is not limited to the following:

- Removal of the existing track surface, and manufacture, supply and install a new track surface, track and field line and event marking using a minimum 13.5 mm thick Super-X Performance track surfacing system with hexagonal backing.
- Installation shall be performed by expert specialized proprietary certified installers assisted by general laborers.
- Removal and disposal of the existing track surfacing and preparation/leveling of the exposed asphalt base suitable to receive the new track surfacing.
- All concrete slabs to receive track surfacing must be installed, on a minimum 12-mil polyethylene moisture barrier membrane, in accordance with accepted industry standards to protect the concrete from infiltration of water from the sub-grade.
- Install a topical moisture reduction barrier (TMRB) to protect the concrete from infiltration of water from natural or artificial causes.
- Use Aquafin Vaportight Coat SG2 applied at a rate of 160 sq. ft. per 2.1 gallon kit.
- Commence resurfacing work on the tracks by Mondo as soon as possible. The critical path for the work at each school is four weeks. The track resurfacing project for each school, including the track and field line and event marking, shall be completed no later than the dates stipulated in the agreement.
• Comply with all applicable California project labor agreement (PLA) and prevailing wage requirements.
• Mondo’s standard limited/specified warranty conditions, five years on the synthetic surface and one year on the line markings, will be extended to ten years on the synthetic surface at all three colleges.

Mondo U.S.A. Inc. was incorporated in 1989 and is based in Conshohocken, Pennsylvania. Federico Stroppiana is the president of the corporation. Mondo will commence the track resurfacing work as soon as possible and the critical path for work at each college is four weeks. The track resurfacing project for each college, including the track and field line and event parking, shall be complete by the following dates:
