

Convenient care during COVID-19

with LiveHealth Online

Throughout the COVID-19 health crisis, telehealth services such as LiveHealth Online have helped people receive care while remaining safe at home. As we continue to practice physical distancing, LiveHealth Online visits are a convenient alternative to going to the doctor's office.

When you sign up for LiveHealth Online you can visit with a board-certified doctor from the comfort of home, minimizing the risk of exposure to yourself and others. Doctors are available 24/7. The doctor you see can evaluate your symptoms, help you understand whether you are at risk for COVID-19, and let you know whether you need to visit a local health care provider in person for COVID-19 testing.

Members with LiveHealth Online benefits can access video visits with doctors and mental health professionals free of charge until further notice. There may be a charge if your plan does not cover telehealth benefits.
