1	Please do not clear out our classes from canvas until we have received our final grade. It's helpful to know the score instead of just the letter grade on our transcript	5/29/2019 9:36 AM
2	none	5/29/2019 9:12 AM
3	The instructor was usually ten minutes late to class. He failed to explain the subject well. He appeared indifferent when the students had technical issues with the environment. The explanations on the board were not legible.	5/29/2019 7:44 AM
4	The barriers to my successful learning in online courses is lack of clear interaction with a teacher who is always absent and never give feedback in a timely manner. Overall, thank you to all the instructors seriously providing help for us to succeed!!!	5/29/2019 6:25 AM

9	I believe I am a better student when taking a face to face course but this semester I have to become a stronger student in every element so that I can transfer	5/28/2019 1:21 PM
10	Some type of instruction interaction would be amazing! I was shocked to learn that there were no instruction/lectures videos to refer to. This course was basically just reading a text book and completing the exercises at the end of each chapter. It was very disappointing. Additionally, the instructor did not respond to emails. This class was very disappointing.	5/28/2019 9:03 AM
11	It was the best way to learn English as second language	5/28/2019 8:37 AM
12	The greatest help to online courses would be that the teacher has clear, unchanging deadlines and that assignments are to be compiled and submitted in a standardized way, not constantly changing and requiring new knowledge of computers each time.	5/28/2019 8:33 AM
13	There should be more COMM classes available online (Argumentation and Oral Interpretation). The lack of available classes makes it extremely hard to obtain a COMM degree.	5/28/2019 8:16 AM
14	I've generally had a great experience with online classes, except for this semester because my own life went haywire. A suggestion would be having all the classwork appear in the Calendar, which for some reason my English 1A class in Spring 2019 didn't.	5/28/2019 12:49 AM
15	To me, the most important is the amount of homework. Teachers should take in consideration the fact that during summer, student have to relax, work and take other classes that theirs. It should be a limitation of homework due per week for example 2 quizzes and 1 essay maximum.	5/27/2019 10:35 PM
16	Really good online system.I am really happy with Peralta online collge	5/27/2019 9:57 PM
17	When I first started using Canvas, I initially felt overwhelmed by the amount of information in different places and was concerned about missing something by not looking in the right place, but quickly adjusted and am now fully comfortable. I'd recommend that instructors prominently and clearly place all information needed for the first few weeks of class on the course home page, so that students like myself are confident that we're not overlooking anything.	5/27/2019 7:49 PM

23	I had one class this term where the teacher responded promptly and was well-organized. Another where the teacher did not answer emails and was terribly disorganized. It made a huge difference, especially online, where you have to be organized.	5/27/2019 3:17 PM
24	I like hybrid classes because I can study anytime I want online, and I still meet my teacher and my classmates only once a week.	5/27/2019 2:52 PM

26	My instructor [XXXXXX] was terrible this semester. Absurd amount of course work expected. Little turnaround time from date assignment was given to the due date. Never followed the schedule or format provided in the syllabus. In general she displayed poor time management skills and little foresight into the course structure.	5/27/2019 12:10 PM
27	I like to take classes with regular meetings so I can get to know my classmates. I have made many friends this way.	5/27/2019 6:04 AM
28	embedded online tutours would be very useful to have going forward. Other than this, having some form of culpability for disorganised / poor online teachers would greatly improve the online platform. I had one online teacher in particular who did not return any of our work for the full duration of the course. There doesn't seem to be any recompense for teachers like this aside from an outside website like Rate My Professor.	5/26/2019 10:28 PM
29	Comprehensive services should be available both in person and online at convenient times to access them	5/26/2019 9:28 PM

35	On-line learning has not evolved to the point where you are interacting with the instructor and other students in real time. As a result, the richness of an academic classroom has not been duplicated. This may not matter as much on the community college level, where many students are trying to check the required boxes before moving on to a higher level institution. However, in my experience, there is a lot to be learned from open debate and intellectual interactions. Full disclosure, I have a Doctorate degree and happen to love learning, so there's that.	5/26/2019 12:09 PM
36	<input type="checkbox"/>	5/26/2019 12:05 PM
37	Course material was challenging to understand and gain access to complete. The Instructor questions, not all, were designed to disguise the intent and therefore distorted my learning goals.	5/26/2019 11:29 AM
38	I should be able to use my preferred email and not my Peralta email. Reminders are going to my Peralta email, that I don't check, because it is a pain to access it. Notifications going to like GMail or Yahoo would be more convenient for me.	5/26/2019 8:32 AM
39	Some online courses that I took gave were a bit confusing to understand and I had a hard time trying to finish assignments because of that.	5/26/2019 4:05 AM
40	Since attending Peralta colleges and doing online courses moving to canvas is a tremendous improvement over Moodle. It is nice to log into one location and be able to maneuver to other desired locations without having to log out and log back in. I love using Canvas and, highly recommend it for students.	5/25/2019 11:44 PM
41	-Very distant, lack of a connection -Quick, easy to access	5/25/2019 10:04 PM

44	This particular online course was interesting but very few students participated in a timely manner to online discussions, rendering the class a little flat. The professor also did not respond to student posts or assignments in a timely manner, which made it difficult to gauge how I was doing in the course and also prevented a cohesive thread of learning from one module to the next. Though the materials were interesting and the reading list was great, I felt as if I was doing the class alone (or with one other student). The class is now over and I only have grades for a few assignments, which made it difficult to go from one level of understanding to the next. Not enough feedback or interaction from the professor.	5/25/2019 9:18 PM
45	Never took an online class yet. Coming up real soon though. Heard information about online classes from friends.	5/25/2019 8:55 PM
46	I really prefer online learning for time management but less social interaction for learning feedback	5/25/2019 8:37 PM

51	Thank you for these online courses!	5/25/2019 2:32 PM
52	I love the quiz it is the best way to know more about online courses	5/25/2019 2:27 PM
53	happy	5/25/2019 1:27 PM
54	I love taking online courses. It allows me to focus on my outside of school and work activities, as well being able to apply myself when needed to complete the necessary work in order to satisfactory complete the course, and learn in the process of doing so. It provides me my own data as to what works and what doesn't for me.	5/25/2019 12:12 PM
55	I feel that one of the options to select for the barriers question should have been lack of consistent internet access. Online courses require student to be able to get online consistently, however one cannot do so with spotty service in the home, at libraries, cafes etc. I found this as being one of the barriers I faced which is why I would have like to have a hard copy of the course work/material so that I could continue to work with or w/out the internet but of course still posting my assignments online.	5/25/2019 11:21 AM

57	knowledge is power	5/25/2019 9:33 AM
58	The online class is interesting and educative. Our instructor [XXXXX] did a great job in human-2. This online class has been a nurturing home for me and my colleagues.	5/25/2019 1:26 AM
59	I really am trying my best to be successful .	5/25/2019 1:22 AM
60	Online English Class is not helpful at all, did not get any resource from instructor. Two other online classes Psychology and Sociology were good. Those classes were well organized and provided adequate resource to learn.	5/25/2019 12:21 AM
61	The instructor should update his material. Material should be in a common format so that its easier to access. Exam questions should be word for word of what is in learning material. Science is confusing enough to jumble other words together to form the question.	5/24/2019 11:39 PM
62	I believe there should be more online class options available for all courses. Working full time makes it hard to attend classes and most of the night classes are either too early or full. Also, most hybrid classes are not convenient because the in class portion is usually morning or midday that does not help working students.	5/24/2019 9:55 PM
63	Really enjoyed my time at [XXXXX]. Definitely do not regret the route I took for the beginning of my college experience. Very organized campus resources!	5/24/2019 9:47 PM
64	Canvas is a very good platform. Just recently took [XXXXX]'s [XXXXX] online class. I wish all online courses were organized in that manner. It really helped with the successful completion of coursework.	5/24/2019 9:44 PM

65	Overall my experience with the selection and instruction with online classes has been a perfect experience. The teachers really communicate in a timely manner, group discussions help to interact and also give students confidence to respond without the weight of the classroom experience where 'all eyes are on me'!	5/24/2019 9:41 PM

76	I had a very biased and unorganized teacher who did not take any responsibility for the mistakes she made. This made it very difficult to navigate when I was unsure what is due when and which quiz to take.	5/24/2019 5:25 PM
77	The worst online experience I had with Peralta was when [XXXXX] uploaded pictures of crossword puzzles for us to perform. They were provided in the least convenient way to do on a computer. I don't know if they wanted us to print them out and scan them in (which sucks) or painstakingly use photo editing software to paste letters on top as if I was writing a ransom note.	5/24/2019 4:34 PM
78	The instructors are very helpful and genuinely enjoy their work.	5/24/2019 4:13 PM
79	I prefer more on campus classes. I am a student of [XXXXX]. But [XXXXX] has very limited choices for classes and instructors. Plus, most classes that I should take next year is Hybrid or online. For example, I should take [XXXXX] class and it's online only in [XXXXX]. [XXXXX] does not have this class. The only instructor for this [XXXXX] class has very bad reviews on Rate my professor. I do not want take class from him because I want to study and learn. But I have no choice. I really want [XXXXX] to review their Professors. From my own experience I really think [XXXXX] has more professional and good professors than [XXXXX]. As an International student I am paying a lot for the college. But I am not satisfied sometimes with what I am getting and studying. Overall I am satisfied to study in Peralta.	5/24/2019 2:06 PM
80	It depends on the Professor to keep a good track with communication with students	5/24/2019 1:21 PM
81	I'm sure on-line courses from Peralta work and I'm just waiting for the pleasant experience in the next course on-line that I take.	5/24/2019 12:37 PM
82	There should be more awareness for the other services provided above because I had not heard of most of these services. Also, I suggest to update each website to modern standards so that the students may easily access and understand each resource to their full advantage. Thank you.	5/24/2019 12:22 PM

88	I Personally feel with online classes are great unless its a class with a lot of material. Its great when you have a teacher who responds quickly to questions you have.	5/24/2019 8:59 AM

89	Online classes at Peralta are fit for other students I've spoken to and my experience is directly related to the old moodle interface. I have no experience with purely online courses without in person class time through Canvas. That being said I still believe the online coursework is typically much heavier and more difficult to stay on top of, especially in the summer. This is what caused me an unnecessary withdrawal on my transcript a few summers ago.	5/24/2019 7:50 AM
90	I had finish with my GE AND I WILL BEGIN WITH MATH, WHICHIS MY MAJOR. I DO NOT NO HOW MATH WILL WORK ON AN ONLINE CLASS, BUT I WILL TRY THE ONLINE CLASS BUT MY SUGGESTIONS IS TO HAVE MORE HOURS FOR TUTORS IN ALL LABS	5/24/2019 7:08 AM
91	I love online courses because I can do it anywhere, and able to have more time for my class.	5/24/2019 2:48 AM

98	Sometimes, online materials are inaccessible or instructors are inconsistent with their due dates. Some instructors I was never able to contact, and others just seemed like they were unfamiliar with how to use the platform (canvas) properly.	5/23/2019 9:47 PM
99	I would like to be able to access passport from my iPhone	5/23/2019 9:24 PM
100	My [XXXXX] course required too much work. The professor overloaded us with long, detailed assignments, comments made over two days, timed tests that were extremely stressful because of the time limit, an inflexible professor who provided little positive feedback and seemed to enjoy over=doing it and making students pay the price without negotiation. I am an A student and because of the structure of the course, combined with the nasty attitude of the professor, I am barely passing with a B. We took four tests, wrote a research paper, completed long assignments. Oh, it was more work than I have ever done. Ever! She was horrible.	5/23/2019 9:19 PM
101	everything has been good	5/23/2019 9:10 PM
102	I think that there should be better reminders available. Other than that, I really think taking online classes is great. If the professor knows how to use Canvas then the class is organized and better for the students. If not, everything gets messy in my experience. I think professors should be trained in using Canvas so there is no problems. I've enjoyed taking online classes especially since I'm still a high school student; it creates a lot of flexibility.	5/23/2019 9:04 PM
103	I took two online courses this semester. My [XXXXX] class was very well organized and the teacher gave useful feedback on submitted work. The [XXXXX] class was not well organized and the instructions for assignments were not clear. Teacher did not give feedback on submitted forum posts except when required; such as, thesis evaluations. When the professor did give feedback on theses in the forum, she was not very tactful. There was no grading rubric posted for any of the assignments including essays. Overall, I was dissatisfied with the [XXXXX] class.	5/23/2019 8:36 PM
104	The online course is a new type of education for me because I experience a much more free arrangement of my time. The assignments and scores can be seen easily which is good for me this semester. I like the online course this semester.	5/23/2019 8:31 PM

106	I don't like this survey.	5/23/2019 7:35 PM
107	I would have liked some more flexibility; I do believe there was ample time to accomplish the assignments. However, life sometimes gets in the way of plans and threw me off my weekly study schedule. And one class, in particular, there was no flexibility. A technical difficulty was that I was unable to have the notifications sent to my personal email even after following the instructions.	5/23/2019 7:30 PM

112	I prefer taking online classes because I can manage my time easily. However, I took one online class this semester and the problem is that I need to spend on that class more than my In-class classes. That was a GE online classes and it was really hard for me to finish tons of work for 2 units class. I hope I can find some easier GE classes after that. Spend 6-7 hours for 2 unit GE online class is really hard for me to manage my time for other classes and work.	5/23/2019 5:03 PM
113	Not all online classes are created equal. My intro [XXXXX] class easily requires 15 hrs a week of work to go through the lessons and readings, do the homework, and prepare for exams. While a intro [XXXXX] might only require 5 hrs a week to do the same. I believe these sorts of time commitments should be emphasized to students prior to registering for an online class. It could make the difference in whether they sign up for the online class or an in person class.	5/23/2019 3:29 PM

115	This will be my first time taking an online class, but I am going to do my best to complete the assignment timely even though i hope my disability does not hinder my learning.	5/23/2019 3:21 PM
116	Overall the platform used by Peralta works well. There is quite a bit of variability on the instructor end of how well they manage online instruction.	5/23/2019 3:16 PM
117	it would be nice if more of the peralta schools had access to students services like online counseling, financial aid, etc. instead of having to come to campus. it is a hardship for student like myself who work 830-pm, mon thru fri. i have to take off work to get anything done. and it doesnt help that the counseling depts limit access to online appts in the peak periods. working students cant sit around and wait for walk in appts to be available	5/23/2019 2:48 PM
118	Make weekly grade updates a requirement from the start. I kept going for a class instead of dropping it, and my gpa along with it, because I didn't know what my actual grade was.	5/23/2019 2:20 PM

123	I am pleased to have the opportunity to participate in online/hybrid classes. The barriers to my success were not having a syllabus available on time. Uploads did not work online, the course, although outlined there were no consistent instructions given. Our assignments never graded on time. I had to submit finished work repeatedly. I benefited from the support of the instructors' whos online information and reading materials were available online and were consistent with the class instruction. My challenge where my new found disabilities and returning to soon from surgeries as well as multiple significant deaths at the beginning and the very end of the semester. Not feeling comfortable enough to articulate via canvas and not knowing exactly what to ask in the virtual setting.	5/23/2019 1:03 PM
124	Very good.	5/23/2019 12:36 PM
125	I like online classes. I took 6 classes this semester so it helped out a lot to have 4 be online & not on campus! Plus depending on the class you take online, it's much more convenient to just take it online and not in class	5/23/2019 12:07 PM
126	Difficulty to ensure accommodations needed when taking courses in the online format: I generally need additional time for course reading & assignments and there is no time to provide additional time to either read or submit assignments later. The only accommodation that I find it works for is additional time for testing.	5/23/2019 11:44 AM
127	One of my on-line courses included instructor Skype office hours which was useful. I interacted with the instructor using voice only but it was still better than via phone. Although, I can't pinpoint the direct reasons why it was better. I liked the interaction using computers. The instructor also had on campus office hour so personal interaction was still available which was a benefit as well.	5/23/2019 11:35 AM
128	I took two classes in this semester, one online and one in regular class. Over all I had good experiences and learned equally. Both the professors are excellent teacher and I learned a lot.	5/23/2019 11:22 AM
129	two out of three online classes I have taken with peralta have been good	5/23/2019 11:01 AM

130	I took some Hybrid courses, the most challenging part was that a few of my professors are not interesting in grading online or doesn't know how to manage the student's assignments. personally I experienced in one of my classes that the professor mistakenly made changes in the canvas that affected my grades. the professor was waited till two weeks before end of the semester to grade the homework. he was not very sure of how to manage his portal and classes.	5/23/2019 10:43 AM
131	Overall the online classes were good, I will only wish the replies from instructors were faster and the assignments were very detailed.	5/23/2019 10:39 AM

133	i took [XXXXXX] in this semester, it was a hybrid class with a horrible teacher, her name is [XXXXXX] in [XXXXXX] campus, it was a total desapointment, i only lost money, time and energy, this person it can not be called a teacher, it is a shame that the college employee people like this. The second class meeting was a horrible experience, most of my clasmate and even me, were arguing with her, and she acted like the most stupid human being with us.	5/23/2019 10:10 AM
134	it's important that the teacher make the assignments clear. That's the main problem if you are not (always) meeting the teacher in person.	5/23/2019 9:52 AM
135	Canvas is a great tool. I have no complaints	5/23/2019 9:49 AM
136	More online classes	5/23/2019 9:19 AM
137	The biggest/greatest barrier to success with online course personally is the interactions with the online Instructors. Whenever I have Questions or comments and I send an Email..some don't respond back or respond way too late or don't understand what I'm saying.	5/23/2019 9:16 AM
138	personally i found the layout of the online course i took extremely difficult, information was out of order in the modules so it was close to impossible to know what information was to be on what text/quiz, and the learning (specifically in my online [XXXXXX] class) was heavily youtube video based which i can do on my own time and i do not really want to pay money for.	5/23/2019 9:15 AM

144	This is a good survey. I plan to take a 2nd online course this summer. And i am hoping that it is more like the previous courses i have taken online. This one was super challenging due to inconsistencies and lack of clear expectations. One option you didnt offer for why we take courses is to keep loans in deferment for half time status in school.	5/23/2019 5:39 AM

146	I enrolled in an online class. I wasn't able to access course content. Two weeks before the end of the term I was granted access. This was after more than 20 email to the instructor. The instructor proceeded to mark an "F". I was then unable to register for the next semester. And it took me bringing in every email to the Dean office. I didn't take any classes for two consecutive semester and contemplated not returning. It took months before my transcript was corrected to show never actually taking the course.	5/23/2019 2:50 AM

150	It would be nice is the counselling and/or financial aid department would allow email correspondence. I take online classes because I can't come to campus, but when I've emailed about issues with my financial aid I've been refused to be helped unless I come in for an appointment.	5/22/2019 11:57 PM

157	Please make more math courses available online! I have taken many liberal arts classes online successfully, and have enjoyed many of these online classes. I took[XXXXXX] fully online and was able to learn a lot easier than when I took the same class a hybrid of partly online and meeting in person twice a week. I noticed there isn't pre-calculus or math 1 available online, but I would really prefer learning the basic principles in a condensed format rather than going to a lecture. Otherwise, I like distance learning because it helps make the most of my time since I work full-time and have to commute between SF and the East Bay, so having access to the classroom from anywhere has helped immensely.	5/22/2019 10:45 PM

161	I have encountered issues with setting and communicating accurate due dates in canvas for online classes. Perhaps making a rule in the software to prevent online class finals to have due dates past the date range of the class, or requiring consistent dates between "due" and "available until" settings would be helpful.	5/22/2019 10:03 PM

164	The classes are very difficult for those in school and work full time because the class is not that different from a normal class, they just give out a lot more homework online. This is harder because the homework in a regular class is hard enough to balance.	5/22/2019 9:21 PM

166	I understand that you want to make more classes on line! This IS A MISTAKE.! There are many art classes that will suffer because of your greed and overhaul of the system that you are not fully prepared to face because of administrative ignorence and corruption!! I wouldn't trust you in the process!! I fear you will be the demise of the California community college system that is becoming less and less FOR the community! There are many more elected officials that need to be elected out of office! You are a disgrace!!	5/22/2019 8:11 PM
167	Online classes were good to me. I specifically liked teachers who made the online class about their likes and subjects easy and understandable for students. Some used website like Pearson Company that was harder to use because it was very much just reading out of a textbook.	5/22/2019 8:03 PM
168	None.	5/22/2019 7:44 PM
169	Overall I like taking online courses, and hybrid courses. The biggest drawback is lack of timely feedback. I like to learn something so well that I will know it forever, and in my last class we never went over what was missed but instead barreled through more and more content. I ended up with a B in the course but do not know what I missed on any of the exams and what I have wrong going forward. This could be a problem if I have to build on this shaky foundation in the future. I would prefer a course where I need to learn concepts well before I go on and if there are mistakes or wrong answers I get back more feed back than just a score. Some classes have been this way and I learned the concepts well. Most of the online [XXXXXX] classes I took were excellent. However the [XXXXXX] class I took was not that great despite the knowledge of the professor, my only cirque being that we needed to go over the data again after the exams to confirm the knowledge or correct our wrong ideas. My intention when taking a class is to be able to apply the data learned and I believe that certainty is key to successful application.	5/22/2019 7:41 PM

170	I recently took my first hybrid course in math at [XXXXX] and the teacher did not teach but expected you to come to class. Math should not be a hybrid course, the online Pearson math lab should be used as a tool to help understand and practice problems, teachers still need to cover the full material expected to get to the next level and pass by showing examples etc. I disagree with how [XXXXX] is forgoing the lower math class availability, this helped me a lot to start from the bottom and go up after 10 years of not being in math.	5/22/2019 6:51 PM
171	I would want to say that there are many instructors that only give videos for us to watch but they don't really care if students are learning. They grade the assignments until the end of the semester. Their only work is to upload youtube videos.	5/22/2019 6:51 PM
172	Have an easier way to navigate or customize the classes so its not as difficult to find assignments or communicate with the professors	5/22/2019 6:27 PM
173	Just wanted to clarify that I haven't taken any online classes yet, I intend to take 1 over the summer, and these are the barriers I'm expecting just cuz I know myself.	5/22/2019 6:20 PM

I have yet to take an online course, I am not against it I just really like coming to class, working with other students, connect, and be motivated seeing others also wanting to further their education. 177	Just making sure that professors have well organized classes is key. I had one class where there were constantly unexpected new assignments with odd deadlines. Another thing for professors specifically is making sure that deadlines are on weekends, since most students who take online classes take them because they work during the week.	5/22/2019 5:18 PM

182	I would like online classes for the Construction project management course.	5/22/2019 4:42 PM
183	I really enjoyed my first online class. The teacher was very informative and quick to respond if I had any questions. She also seems eager to help answer any questions I had. My only issue was my job has been demanding of my time lately and sometimes I was so consumed with work deadlines I ended up missing a assignment and had to do it late. But overall the class was great.	5/22/2019 4:36 PM
184	nothing	5/22/2019 4:31 PM
185	Online courses should absolutely be clearly organized and the expectations should be explicitly stated. It also helps when all of the required material is made available through Canvas.	5/22/2019 4:22 PM
186	More services should be available online or via video chat. As not many can make it to campus but can be available at the time need be. Like the student educational counselors should be able to access video conferences. I think online courses can be a little more detailed & a lot more responsive from the teachers. We should be able to hear back from instructor within 24 hours. Not 2-3 days	5/22/2019 4:16 PM
187	For [XXXXX] class i took, was very organized - wished that it was self-paced versus on a schedule (I tend to work through things faster) and much of coursework was not released until end of week but due on Sunday or Monday so was not ideal. Content was good -but for Unit 4 felt like content needed a little work to be more supportive for the calculations related to [XXXXX] and the other chapters within the last section - otherwise good experience!	5/22/2019 3:55 PM

It is not fair us, if other students who some how have access to see the answers online	5/22/2019 3:17 PM

199	It would be beneficial for us as online students to be able to access counseling and library services as well as career and bookstore access online easier.	5/22/2019 2:30 PM
200	Non suggestions. Im very happy with the online learning platform,	5/22/2019 2:15 PM
201	The biggest issue with online classes from my perspective is that the variance between students in a community college setting is magnified and instructors seem to lack the time, training, or interest to provide enough differentiation for students so it's usually a lower common denominator that's set for the course than I'd prefer.	5/22/2019 2:14 PM
202	Canvas is great! Incorporating more videos into classes might be helpful (video lectures, meetings, assignments, etc). My least favorite part about taking online classes is the absence of in-class discussions, debates and dialogue. Finding a way to fill that void will likely increase student success.	5/22/2019 2:11 PM
203	get better teachers	5/22/2019 2:08 PM
204	Make sure teachers are well trained on how to use canvas. My current teacher doesn't know how to use it so she keeps changing and closing test dates without letting us know because she is unaware of the changes she is making.	5/22/2019 1:57 PM
205	Canvas is so much better than Moodle!	5/22/2019 1:53 PM
206	I like when the online class have all the assignments put in at the beginning of the semester so that I know what I am getting myself into	5/22/2019 1:53 PM
207	Professors teaching online courses should be required to be proficient in Canvas use because this makes a significant difference in the enjoyability of the class.	5/22/2019 1:44 PM
208	Online courses are critically important for some students who have the adequate support and technology. It is definitely a lot different. More online interaction with the professor is needed. Thank you.	5/22/2019 1:29 PM

This and time management were the biggest issues I had.	5/22/2019 1:07 PM

216	[XXXXX] was my teacher for this course and she was very unhelpful with questions that I had about assignment. Her response was always "read it again". Taking this course has made me not want to pursue college in the future.	5/22/2019 12:36 PM
217	Create a way for arranging a counseling appointment without calling the counseling office (an online format)	5/22/2019 12:25 PM

218	Overall very satisfied with my experience. For online classes, it just takes an extra level of self-discipline and organization	5/22/2019 12:12 PM
219	I prefer face-to-face classes because MOST professors assign 3 times more work online than face-to-face classes. This professor was just amazing and didn't do that.	5/22/2019 11:46 AM
220	If the office hour of the instructor can be longer or more flexible, the hybrid class would be better. What's more, I think if there's more in-person meeting for students to check their status in class, it would be better.	5/22/2019 11:35 AM
221	I think that online services are only good if the student is willing to learn. They have to understand that skipping materials will ultimately make you fail and that you are not learning if you are skipping them.	5/22/2019 11:31 AM
222	I really wish some online teachers would be more interactive with their students. Since we don't see each other in person or on a regular basis, it be nice to know the instructor cares by reaching out from time to time.	5/22/2019 11:28 AM
223	It is hard to say	5/22/2019 11:27 AM

226	There have been a few instructors that have been a bit disorganized and have not followed through on curriculum. When taking an online class it is difficult to make time for a face to face appointment with instructor or call, if you are taking the online class must be there are obligations that prevent you with time, like work or other obligations. I find it unfair to have a student be put through that and if you can't adhere to a meeting your grade may be lowered. The whole reason of online is to be online.	5/22/2019 11:08 AM
227	n/a	5/22/2019 11:04 AM
228	I really enjoy learning on the canvas app. It allows me to compare my work with other students as far as grades go, and it is much more reliable than earlier editions to online courses that I have had in the past. I used to have blackboard and it was a pain to work on. Canvas is very tech-forward, and I appreciate good design.	5/22/2019 11:02 AM
229	There is a huge discrepancy in the difficulty level of 3 unit online classes. I have taken a 3 unit online class that was more work than any 5 unit lab class I have ever taken, and I've also taken the easiest class in my 2 years at Peralta online (similar subjects - should not be so hugely different). It would be nice to have some standardization of the amount of work in online classes so it's possible to gauge whether I actually have time to take the class or not.	5/22/2019 10:43 AM
230	Regarding the intersession courses. It would be best if the syllabus was accessible as soon as a student registers for a class. Or better yet, available by emailing the professor. The course are fast pace and students will be able to determine whether they think they can handle such a course. This would most likely save the professors / instructors time later on when needing to drop students.	5/22/2019 10:08 AM
231	Some professors were no help at all. Professor [XXXXX] has been absent the entire semester, and when she is present it is normally her telling the students how to address her rather than explaining something that has to do with assignments. She does not respond in a timely manner and she is largely hands-off as a professor. Very disappointing semester in [XXXXX].	5/22/2019 10:02 AM
232	I just wish the Professor teaching this class was more organized.	5/22/2019 9:44 AM
233	Although distance learning is a great option, Teachers should be more available via portal to reply to students. In this semester my teacher rarely responded to my question, that's the only comment that I think could improve other students taking online classes. Thanks.	5/22/2019 9:43 AM
234	Pleas less homework learn lot.	5/22/2019 9:39 AM
235	One of my professors was great with having zoom conference calls for tutoring. I would advise all teachers to be accessible that way since you do not have lecture time like a regular class it really helped. Also if the online tutoring can be ramped up when I did use it they seemed impatient or no one answered my question so I think it needs to be looked over again.	5/22/2019 9:35 AM

236	Canvas is quite difficult when it comes to navigating what you need. There are too many things going on on the app. I am close to failing one of my online classes because of lack of help as well as self-motivation. This will be the last time I take an online class.	5/22/2019 9:11 AM
237	I'd like instructors to present the syllabus via video AND written. Timely feedback on submissions in critical. Server seems slower on Sundays when many classes seem to have assignments due...therefore tech support needs to be available on Sundays or have instructors have exams and due dates only when tech support is going to be available.	5/22/2019 9:06 AM
238	while online courses make the most sense for full time working students, professors grossly overload course requirements.	5/22/2019 8:51 AM
239	Hybrid biology classes are extremely too much work and should be explained that there are 2 professors for each hybrid class with different deadlines	5/22/2019 8:33 AM
240	all student should use online class	5/22/2019 8:14 AM
241	Thank you.	5/22/2019 8:00 AM
242	Overall all the online classes I have taken have been great and I have benefited from them. The only downside that was very disappointing is that I had a professor tell me how he offers extra credit to his in person classes but not to online students because we have it easier. And I beg to differ - this was also a professor that didn't answer email regularly and was seldom available on google chat when he said he would be.....the lack of contact with the teacher is horrible! I haven't tried a Hybrid course yet, but maybe that would be the upside of hybrid vs all online.....meeting once in a while.	5/22/2019 7:54 AM
243	[XXXXX] was a great Instructor. It would have been better to have FB more involved in the student partnership with the Instructor.	5/22/2019 7:02 AM
244	Some online classes are just really good real classes where I actually feel like I'm getting something from the teacher. Some of them feel like paying for an online book that does all the actual teaching ([XXXXX])	5/22/2019 6:42 AM
245	I understand than if the class is online there is a lot of more work, but the amount of homework is to much, that is why I stop taking classes online and I prefer going to the school, because instead of being helpful it was the opposite	5/22/2019 6:28 AM
246	I'd prefer the Canvas system to be a little more robust, as for some classes it was very unreliable and unorganised.	5/22/2019 5:13 AM
247	Thank you very much.	5/22/2019 3:49 AM
248	We had no heat in our class	5/22/2019 3:16 AM

250	I think the most important part of any course for me, whether I'm taking it in a traditional classroom setting or online, is that the teacher has organized everything and not complicated things. Also, active reminders and communication between the teacher and the student is something really important.	5/22/2019 1:30 AM
251	the feedback I'm providing is not enough to describe the challenges I experience throughout this course.	5/22/2019 1:13 AM
252	I met a teachers of an online classe that can nor reply to students on time and don't have any comments of the assignment.	5/22/2019 1:02 AM
253	Online courses should have the option of text messages or email reminders of an upcoming due date. This will help students with time-management	5/22/2019 12:58 AM

254	As a DSPS student, it is a WASTE OF RESOURCES,(counselors time, my time, and time that could be spent with a new DSPS student) to have to have a meeting with a DSPS councilor every semester to receive accommodations. It would be more efficient if the list of DSPS accommodations was accessible online like unofficial transcripts. My biggest complaint is that you do not train all teachers on how to use CANVAS. There needs to be mandatory modules that they must pass on how to use canvas. They should have access to these all semester. Many teachers misuse it, and the students suffer. There also needs to be protocols on how long teacher have to respond to emails. It is unprofessional to not answer an email with 1 weeks time. If the Professor is in and online format that has items due at the same time each week(ie every SUNDAY NIGHT 11:59pm) the teacher MUST RELEASE the assignments, at MONDAY 12:01 am. It would make me upset that the day I had set aside to do the work(monday) was a functioning work day because of poor planning on the professors part. The reason people take online courses is to squeeze education into their schedule. It is unethical to decide for the student when through out the week they may access and do their assignments WHEN IT IS NOT EXPLICITLY DEFINED IN THE SCHEDULE OF CLASSES!!! I can not reiterate this last point enough. ONLINE class need to be designed where the students are given a minimum of 1 full week from when they received an assignment to complete it , and to have access to test and quizzes available for one full week.	5/22/2019 12:34 AM

There were assignments not listed in the calendar which I missed doing, because they were only elsewhere, and through the maze of clicking and reading, somehow I missed them. A better check & balance between the different ways of listing assignments would have been helpful.	5/21/2019 10:24 PM
270	I love online/ hybrid courses. I have social anxiety so I have a hard time paying attention to in person lectures because there are so many people around. Online classes allow me to learn in the comfort of my own house without strangers around. I also like not having to be forced to go to class for 3-4 hours a week at given times. I'd rather study and do homework at home in my own time.	5/21/2019 10:16 PM

275	It would be helpful if instructors pay attention to detail and update the dates for the current semester. This leads to confusion where I needed to inquire about what the true dates were.	5/21/2019 9:51 PM

285	One of my classes I really like how you can feel that the professor really cares about her students and she makes a conscience effort to provide feedback after grading every assignment. The work is also relatable and she creates a healthy learning experience. My other online class is not the same, I do not feel like the professor really cares about the well being of her students, never leaves us with any feedback, there are no discussion boards so we can interact with others in our class or ask for help. She takes a while to reply back to emails and when she does, it is not very helpful and she lacks passion to me. and compassion as well.	5/21/2019 8:56 PM

290	I wish there were more online math classes available.	5/21/2019 8:22 PM
291	My first time using online courses and I am liking it so far. It works very well with my work and life schedule.	5/21/2019 8:19 PM

296	More classes should be available online. As a full-time worker, I'am way too exhausted to come to a class 3 days a week in the evening for 2 plus hours. .	5/21/2019 8:09 PM
297	[XXXXX] is the worst place to study because the [XXXXX] janitor that works in [XXXXX] Student center always closed early unexpectedly for no reason and sometimes even shut off the whole campus electricity causing many students unable to have a place to finish studies or have any internet access . Security and janitors at [XXXXX] student center is really corrupted and unreliable causing a unsafe environment for students to learn and thrive !	5/21/2019 8:02 PM
298	Module has been listed by the earlier date on top and later at the bottom. There isn't any issue for the first few weeks but going more into the semester, the list keep lengthen and I need to scroll all the way down to get the materials. It would be great to see an option for students to alter it by choice.	5/21/2019 8:00 PM

299	The online instructor for [XXXXXX] did not provide her students enough information on what exactly she is looking for from our work. When we asked questions, it was never a straight forward answer. Instead, she referred us back to our module - which already do not explain enough in the instructions. Her style of APA is different than what is online, and since she just refers us back to the instructions that we didn't understand from the start, it gave us no choice but to look online for the "wrong" answers. If I were to take any online classes in the future, I would prefer to have an instructor who doesn't mind taking the time to explain things better when students do not understand. When she has virtual office hours, it is during a time that some of us are unavailable to our other busy schedules.	5/21/2019 7:59 PM
300	The online courses that I have taken provided an opportunity for myself to be able to work and go to school. While my Spring course I would have personally benefit from an in class instructor to better understand materials a little more the teacher was great to help and to have open office hours to answer any and all questions I had. I would have like to have more interaction with classmates possibly through reflections of the material with a forum.	5/21/2019 7:51 PM
301	Online class is nice because I have enough time to do my homework at any day of the whole week. [XXXXXX] class is not hard on taking online class but if other classes like [XXXXXX] class is difficult because their is a lots of reading is really complicated its hard to manage the time especially that I still studying English right now. Its hard to understand I need teacher that can explain.	5/21/2019 7:47 PM
302	Online classes are great as they allow students to adjust and fix time-table for assignments thereby enabling submitting them on time. It also saves a lot of time. It needs more resources from the teachers for students to do better.	5/21/2019 7:46 PM
303	I like learning with online classes	5/21/2019 7:46 PM
304	Open more hybrid classes	5/21/2019 7:44 PM
305	Grading deadlines would be extremely helpful, some professors are very efficient, some seem to struggle with keeping grading consistent for online courses.	5/21/2019 7:40 PM
306	online courses are great or those adults who hold full time jobs and have families	5/21/2019 7:36 PM
307	I just want to add that any instructor should explain the access program class to the students before starting the course and what are the most important place are that a student should always check for any change.	5/21/2019 7:27 PM
308	I took the [XXXXXX] program it was a lot of disorganization and all the instructors seem like they were fighting with each other and it was a reflexión on or leaning process!!!	5/21/2019 7:18 PM
309	Online classes have 3x more work than a face to face class	5/21/2019 6:58 PM
310	N/A	5/21/2019 6:55 PM
311	I have taken many online classes, at several campuses, and I can say that peralta has some of the least interactive intstructors. It is really difficult to remain motivated when assignments are graded late and the instructor does not respond to emails.	5/21/2019 6:40 PM
312	I'd like to know more about student privacy policies in regard submitting personal data and why is it helpful to submit such data. Thank you	5/21/2019 6:34 PM
313	Online courses make studnets more engaging the studying	5/21/2019 6:26 PM
314	Clarity of the teachers expectation with a clear listing of assignments and due dates. I've had great online courses but the ones I didn't enjoy were for my part because the teacher wasn't clear in their instruction or gave very little feedback.	5/21/2019 6:26 PM
315	condense the material . The work lode is too large weekly for working students. reading 3 chapters and watching 3 one hr. videos a week then completing, all those questions , reading and answering 2 other peoples questions and a quiz is excessive every week . Very easy to fall behind especially if you work and/or take more than one class.	5/21/2019 6:24 PM
316	I am overall satisfied with online courses.	5/21/2019 6:19 PM
317	I like online classes. I can move to my own rhythm.	5/21/2019 6:16 PM
318	online classes helpful for working students. Teachers communicate with us and responses to our email on time. It is very supportive and encourages to finish our courses.	5/21/2019 6:13 PM

319	The best online classes I've had have been with well organized and accessible teachers - this has mostly been my experience. The one bad experience I had was with a teacher that was highly unorganized and unresponsive. As with any class, the teacher makes all the difference in the world.	5/21/2019 6:11 PM
320	Hyberd is good for me however the timing of office hours to meet the teacher is not flexsable	5/21/2019 6:11 PM
321	Online course are very satisfactory	5/21/2019 6:04 PM
322	Online courses are great when the professor has everything laid out and in order. There should be some sort of prep for teachers who want to host online classes. Help with canvas too. I've had a teacher that was horrible with navigating canvas and it was annoying.	5/21/2019 5:59 PM
323	should have easier access to library/better online library source.	5/21/2019 5:59 PM
324	don't give too much online class, because of too much cheating from student. it is not fair to student.	5/21/2019 5:57 PM
325	none at this time	5/21/2019 5:55 PM
326	I like the online class because it saves me time, and I don't like it because I don't get to talk with other students or the professor face to face.	5/21/2019 5:55 PM
327	For an online class, it should be easier to communicate with the professor instead of waiting for a reply two weeks later. Teachers for online courses should be a little more helpful when needed to communicate with them	5/21/2019 5:49 PM
328	Professors teaching online courses need to be accessible and provide regular feedback. I've had two online professors this semester that never graded anything and gave no feedback so I had no idea how well I was actually doing.	5/21/2019 5:29 PM
329	I strongly prefer online classes because it allows me to help around the house and care for a sick family member, and its convenient	5/21/2019 5:27 PM
330	Most teachers were below average. Overall, [XXXXX] was a depressing campus with no energy going around. Felt like some counselors did not care enough about the students' careers. Felt like they were trying to "trap" me into the peralta system.	5/21/2019 5:20 PM
331	In general, online classes are satisfying and give more time in completing assignments. However the only disadvantage is that it's not enough discussing the material with professor online. I prefer meeting my professor face to face when I don't understand the material. Even though it's online class, there should be included office hours for a professor. One of my online classes had this chance whereas my second one did not have. Thank you	5/21/2019 5:17 PM
332	Distance instructors need to be more responsive to emails or Canvas messages and need to be clear about grading criteria and due dates.	5/21/2019 5:17 PM
333	TEACHERS SHOULD CHECK INBOX A LOT MORE	5/21/2019 5:14 PM
334	In your question about what does not help me learn online, you did not give an option for the teacher not responding to students on time, not grading assignments and not interacting with students. That has been an ongoing issue this semester for me.	5/21/2019 5:13 PM
335	Canvas is amazing and very convenient to use. I took one online class last winter break, and it really helped in finishing my prerequisites quicker. Therefore I will be taking more in future. Thank you!	5/21/2019 5:10 PM
336	I think we need a space for students who need a quiet place to study. The second and third floor in the library are designed for that, but students there make so much noise. Thanks.	5/21/2019 5:09 PM
337	If the teacher is a clear and strong communicator and is tech saavy, then YES, this format works! Love it!	5/21/2019 5:07 PM
