Note: Entry into a program is defined as passing three courses within a program of study with a grade of D or better within the indicated time period. Counts for Non-Entry reflect the program the student has taken the most courses in without entry during the indicated time period. Thus, where the time period for entry is the first year, the student may have entered a program in later semesters or years or may have taken courses in the program without ever achieving entry before leaving the college or district. Courses taken at any college within the district are included. The first year consists of the fall term of the cohort and the immediate prior summer and the immediate following spring terms.

Source: Transfer figures derived from state Chancellor's Office ARCC files for Student Progress and Achievement by matching student ID's of ARCC cohort data (all available cohorts simultaneously) with those of the indicated College's fall entering cohort. ARCC data includes transfers to CSU, UC, and private and out-of-state colleges whose data is available in the National Student Clearinghouse. ARCC data does not specify the institution to which the student transferred nor periods less than six years.
