CC: nheller.peralta@gmail.com <nheller.peralta@gmail.com>, Justin Hoffman <jhoffman@peralta.edu>

Colleagues:

We agreed at our most recent meeting that Nate Heller, Justine Hoffam, Fabian Banga and myself would meet separately to capture the essence of Nate's intended motion. Since that time we have communicated via email and would like to propose the following draft motion at the next DTC meeting in October.

Motion:

"That the campus Technology Committees be asked to create a plan that describes and assesses how local technology will be leveraged to support student success. This plan would include, but is not limited to, orientation, smart classroom and the Gmail Project. Furthermore, we would ask that the campus Technology Committees work collaboratively with campus shared governance groups and key stakeholders in the preparation and submission of the plan. Campus plans should be submitted to the District wide Technology Committee by December 6, 2013".

We thank you for your consideration. If you have questions, please feel free to let us know.

Thanks.

Eric V. Gravenberg, Ph.D.
Interim President
College of Alameda
