RE: District Service Center Program Reviews

After a great deal of work and collaboration I am happy to report that the District Service Centers have posted their program reviews on the Peralta Website. They can be found at:

<http://web.peralta.edu/district/annual-program-reviews/>

The Process has been excellent for bringing the district leadership together to review processes. Our next steps will be to meet with the Vice Chancellors to prioritize the resource requests, as well as complete an Abstract which will assist everyone with a 500 word summary of each of the service areas.

As is occurring on the campus we are also fine tuning our service area outcomes and will assess those annually through various methodologies.

Today we will review the staffing requests and an overview of all resource requests to date.
