ADMINISTRATIVE PROCEDURE 5011 ADMISSION: SPECIAL ADMISSION AND ENROLLMENT OF HIGH SCHOOL AND OTHER STUDENTS

Introduction

Per Education Code 48800 and 76002, the Peralta Community College District (Berkeley City College, College of Alameda, Laney College, and Merritt College) authorizes the admission of special admit students, who are "highly talented" minor students without high school diplomas, who can benefit from "advanced scholastic or career/technical work."

Students will receive college credit in all courses. The responsibility to make the determination of the student’s preparation belongs to the school district in which the student is enrolled. However, the final determination rests with the College where the special admit student seeks to enroll.

A student participating in the special enrollment program as a special admit receives college credit. With the approval of the high school, the student also may receive high school credit. The Office of Admissions and Records will send an official transcript to the high school upon request.

The authority to restrict the admission or enrollment of a special admit student in any session based on age, grade-level completion, current school performance or assessment and placement procedures in conformance with matriculation regulations and other course or program prerequisites, remains the prerogative of the college.

Special admit students shall be restricted from enrolling in any class deemed educationally inappropriate for under-age (minor) students.

Additionally, the California Education Code section 76004 that the District may participate in a College and Career Access Pathways (CCAP) partnership with the governing board of a school district for the purpose of offering or expanding dual enrollment opportunities for students who may not already be college bound or who are underrepresented in higher education, with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates or helping high school students achieve college and career readiness (see below).
